# AURALIS

Combined with technological innovation and a design approach, Castaldi's indoor and outdoor technical lighting, Penta's decorative and contemporary design and Arreoluce's great masters of design seamlessly come together to create a world-class example of Italian excellence and creativity.

L'illuminazione tecnica indoor e outdoor di Castaldi, il design decorativo e contemporaneo di Penta e i grandi Maestri del design di Arredoluce, si fondono in un esempio di eccellenza e creatività italiana, innovazione tecnologica e approccio progettuale.

 CASTALDI

 ARREDOLUCE

AURALIS

**Auralis is the first integrated industrial hub in the lighting field.**

Auralis is an all-Italian reality that satisfies all kinds of lighting needs, whether its indoor or outdoor technical solutions, residential and contract projects, contemporary design collections or just great classics. A unique, vertical and comprehensive group of excellence which defines a new era in the lighting sector through a strong drive for technological innovation, the pursuit for beauty, and a clear mission aimed at promoting the culture of light as a tool to improve the quality of people's lives.

**Auralis è il primo polo industriale integrato, nell'ambito dell'illuminazione.**

Una realtà tutta italiana, in grado di soddisfare ogni genere di esigenza di illuminazione, che si tratti di soluzioni tecniche indoor o outdoor, di progetti per il residenziale o per il contract, di collezioni di design contemporaneo o nell'ambito dei grandi classici. Un gruppo di eccellenze unico, verticale e completo, che definisce una nuova era del settore illuminotecnico, attraverso una forte propensione all'innovazione tecnologica, una costante ricerca della bellezza ed una missione ben chiara, volta alla promozione della cultura della luce come strumento per migliorare la qualità della vita delle persone.

# AURALIS

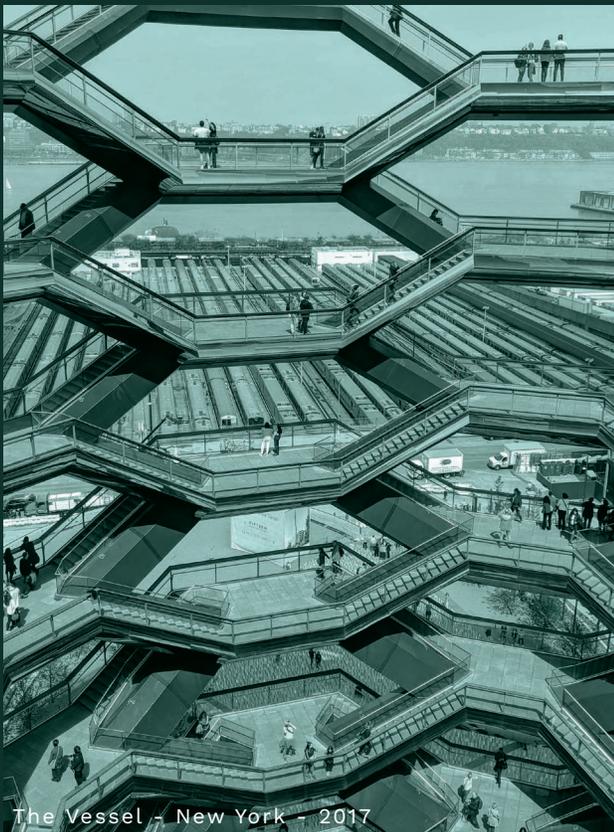

Auralis supports man's innate need for beauty, for building wonders without setting limits, except that of imagination. For such reason, it supports architects and lighting designers to create all-round lighting solutions by working alongside customers and partners with a sales and assistance network that spans in more than 95 countries worldwide.

Auralis sostiene l'innata attitudine dell'uomo nel ricercare la bellezza, nel costruire meraviglie, senza porsi limiti, se non quello dell'immaginazione. Per questo affianca architetti e lighting designers attraverso soluzioni a 360 gradi per l'illuminazione e lo fa lavorando al fianco di clienti e partner con una rete vendita e assistenza attiva in oltre 95 paesi nel mondo.

“  
Limitless lighting”

# CASTALDI LIGHT IS OUR MISSION

The Vessel - New York - 2017

Metro - Milan - 1964

Castaldi has been innovating since 1938. In its over 80 years of history, it has totally reinvented the lighting sector, introducing the concept of architectural lighting half of a century ahead of its time. As a pioneer of technical solutions designed to enhance rather than simply light up external spaces and architectures, Castaldi seeks to improve the spaces in which we spend our time. A market leader internationally, Castaldi offers a wide range of high performance products with a refined design and avant-garde technology.

Castaldi, innova dal 1938. In oltre 80 anni ha incessantemente reinventato il settore dell'illuminazione, introducendo con oltre mezzo secolo di anticipo il concetto di illuminazione architettonica. Pioniere delle soluzioni tecniche in grado di valorizzare e non semplicemente mostrare gli spazi esterni e le architetture, Castaldi è artefice del miglioramento degli spazi in cui viviamo il nostro tempo. Player protagonista del mercato internazionale in grado di offrire la più ampia gamma di prodotti ad elevata performance, design ricercato e tecnologie in continua evoluzione.

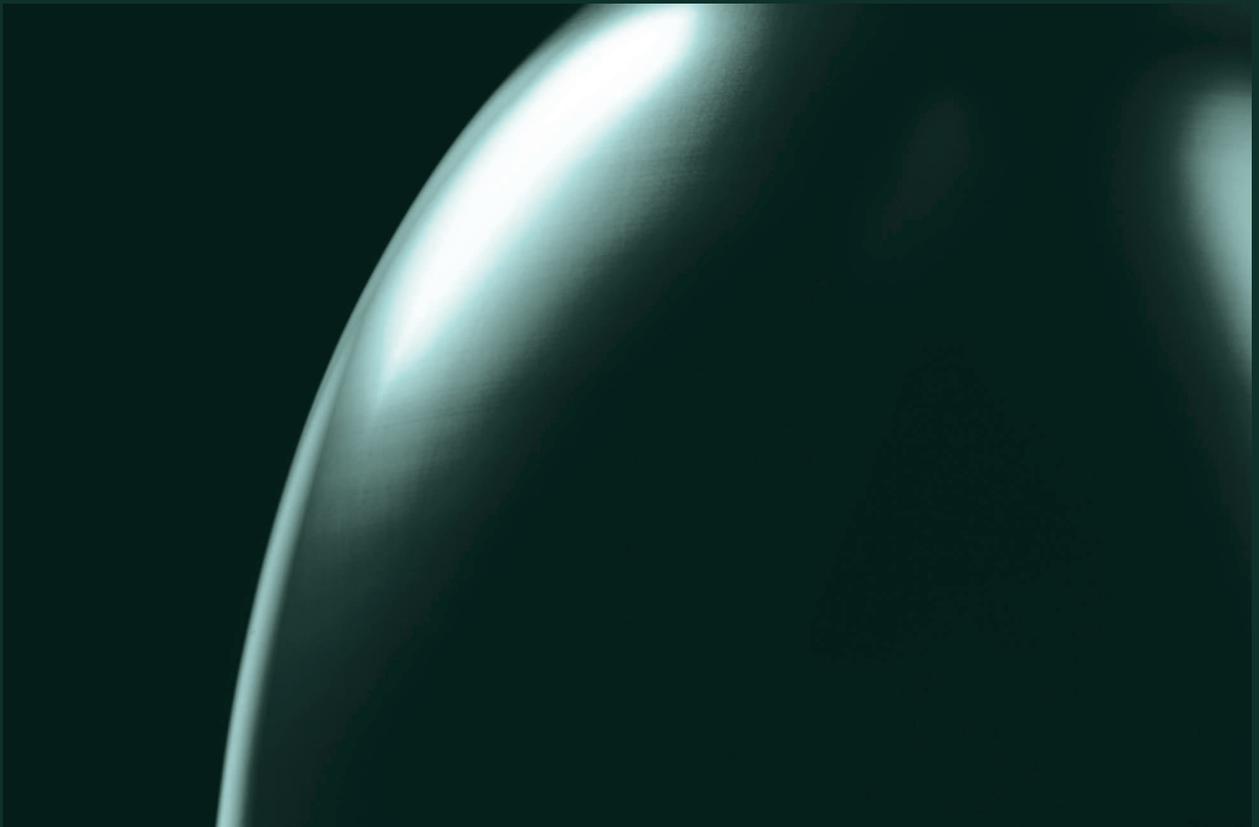

# CASTALDI: OUR VALUES

Who says that the term “made in Italy” is only about beauty? And who says that technology can’t be breathtakingly beautiful? At Castaldi, we love to be surprised by talent and admire the unexpected. As ambassadors of Italian creativity and masters of innovation, every new solution must make our hearts beat first.

Chi dice che “made in Italy” significhi solo bellezza? E chi dice che la tecnologia non sia anche bella da togliere il fiato? In Castaldi amiamo sorprenderci di fronte al talento, fermarci ad ammirare qualcosa di inaspettato. Siamo ambasciatori della creatività italiana e testimoni di una storia di innovazione ed ogni nuova soluzione, deve farci prima battere il cuore.

“The beauty  
of innovation”

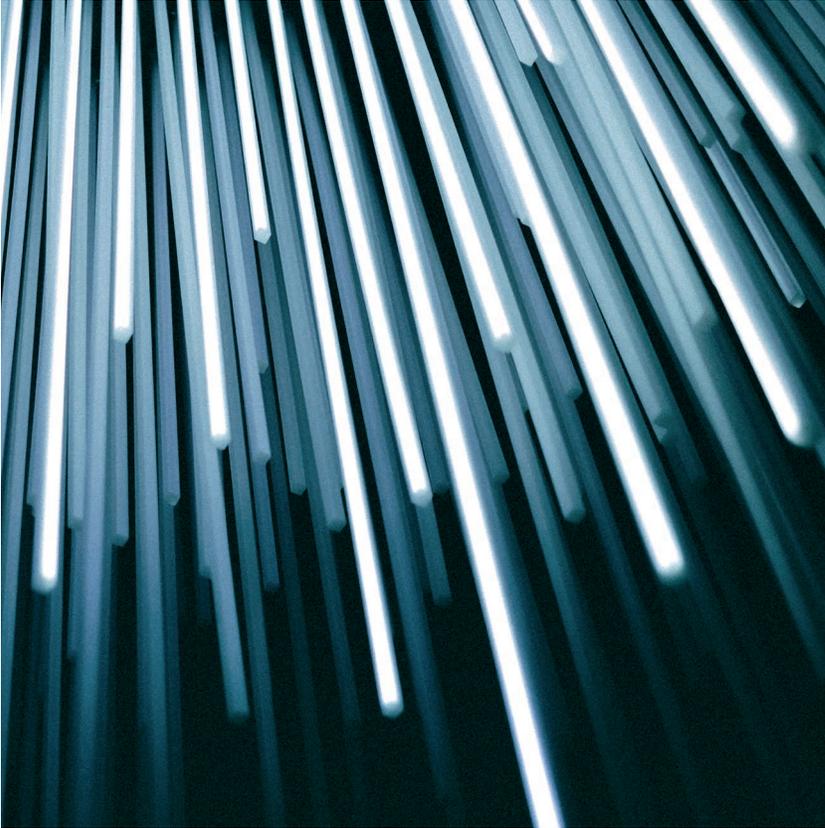

# CASTALDI: OUR VALUES

“

Image  
something  
perfect

”

Research and development, controls of production processes, quality assurance, flexibility and design capacities – the very best standards are achieved through the continuous pursuit of perfection, but what moves us most is the power of imagination.

Ricerca e sviluppo, controllo dei processi produttivi, quality assurance, flessibilità e capacità progettuale. Gli standard più elevati si raggiungono attraverso la continua ricerca della perfezione, ma ciò che ci muove è pura, semplice e potentissima immaginazione.

# CASTALDI: OUR VALUES

We believe in the power of ideas and support whatever illuminates our paths.

Castaldi products are installed around the world in the most iconic and challenging contemporary architectures. Because, like the most visionary designers, we pursue and feed on ideas until they are realized, marvelling them, as if it were the first time.

Crediamo nel potere delle idee, sosteniamo ciò che illumina nuove strade.

I prodotti Castaldi sono installati in tutto il mondo nei luoghi più iconici e sfidanti dell'architettura contemporanea, perché come i più visionari progettisti, inseguiamo un'idea, ce ne nutriamo, fino a vederla realizzata, meravigliandocene ogni volta, come se fosse la prima.

“ We help  
build  
marvels ”

# CASTALDI: URBAN

Energy savings and a low environmental impact are essential conditions for lighting in the construction, public and private sectors. The city of the future looks to sustainability and technology. Unique, beautiful, safe places ensuring increasingly low energy consumption – with this approach, we adapt our lighting according to the customer's needs.

Risparmio energetico e basso impatto ambientale sono condizioni essenziali per la costruzione e l'illuminazione pubblica e privata. La città del futuro guarda alla sostenibilità e alla tecnologia. Luoghi unici, belli e sicuri, con consumi sempre più contenuti. Con questo approccio adattiamo la luce alle esigenze dei nostri clienti.

The standard colours in the catalogue apply to poles, outreach arms and decorative lamps. The lamps can be painted in one of the standard catalogue colours at a surcharge.

I colori standard presenti nel catalogo possono essere applicati a pali, sbracci e lampade decorative. Le lampade possono essere verniciate in uno dei colori standard a catalogo con sovrapprezzo.

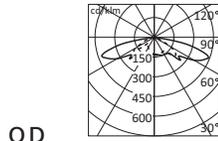

# OPTICS

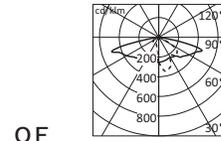

**OA**  
Standard optic for poles taller than 6 metres. Roads, bicycle paths, pavements.

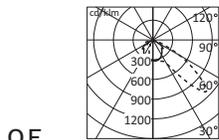

**OB**  
Standard optic for poles shorter than 6 metres. Roads, bicycle paths, pavements.

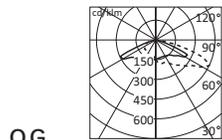

**OD**  
Optic for high centre-to-centre distances and large spaces, particularly suited to poles shorter than 5 metres.

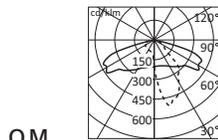

**OE**  
Optic for high centre-to-centre distances with medium front emission. Roads, bicycle paths, pavements.

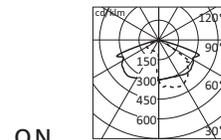

**OF**  
Optic for pedestrian crossings, with central installation. Large depth-wise spaces.

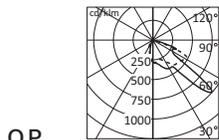

**OG**  
Optic for large spaces, particularly in the front.

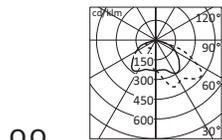

**OM**  
Optic with narrow light emission. Roads, bicycle paths, pavements.

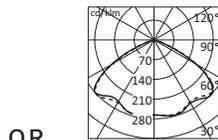

**ON**  
Optic for rear lamp position. Roads, bicycle paths, pavements.

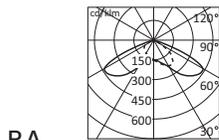

**OP**  
Optic for pedestrian crossings, with side installation.

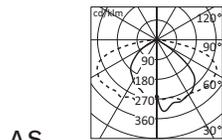

**OQ**  
Optic for reduced centre-to-centre distances and large depth-wise spaces.

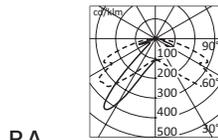

**OR**  
Standard roto-symmetrical optic.

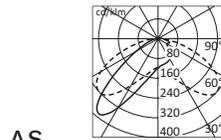

**RA**  
Road emission Boxer Round and Boxer Street.

**AS**  
Asymmetric Boxer Round and Boxer Street.

**RA**  
Road emission Tema Landscape and Tema city.

**AS**  
Asymmetric Tema Landscape and Tema city.

Depending on the specific project, the product can be personalised from a photometric perspective, by creating customised emissions and combining different optics for optimal results.

In base allo specifico progetto, è possibile personalizzare il prodotto dal punto di vista fotometrico, creando emissioni customizzate, combinando tra loro le ottiche, così da ottenere i risultati ottimali.

# MORE FEATURES

## 48 h test / Test 48 h

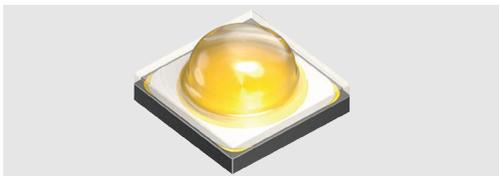

---

Each lamp is assembled and tested individually to define the lumen output, power and colour temperature parameters. During the testing phase, each device remains in function for 48 hours by alternating on and off cycles, so as to eliminate possible premature malfunctions.

Ogni lampada è assemblata e testata individualmente, per garantire i parametri di lumen output, potenza, temperatura di colore. Durante la fase di test, ogni apparecchio rimane in funzione 48 ore alternando accensioni e spegnimenti, al fine di eliminare i possibili malfunzionamenti prematuri.

## LED technical properties / Caratteristiche tecniche del LED

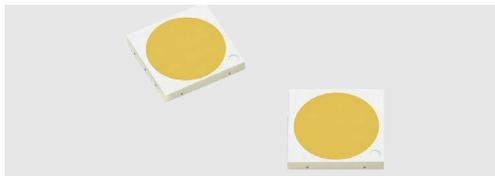

---

### Ceramic case

The LED used on our products possesses the following characteristics: single-chip high-power LED with ceramic case and new-generation primary optic, with binning within the 3 MacAdam steps, selected LED voltage (VF) and economical life cycle: 100,000 h @ L90 @ Ta = 25°C, ensuring performance over time.

Special solutions have been implemented on each lamp, between the LED board and the body, to optimise the heat exchange. These measures increase the electrical stiffness and help to enhance the product's reliability over time.

### Plastic case

Il LED utilizzato nei nostri prodotti ha le seguenti caratteristiche: LED Single Chip High Power con Case Ceramico e ottica primaria di ultima generazione, con binning entro i 3 step Mc Adam, con una tensione del LED (VF) selezionata, ed una vita economica: 100.000 h @ L90 @ Ta = 25°, per garantire nel tempo le prestazioni.

In ogni lampada, tra la scheda LED e la scocca, vengono adottate soluzioni per ottimizzare lo scambio termico, aumentando la rigidità elettrica e contribuendo ad aumentare l'affidabilità del prodotto nel tempo.

## Versions / Varianti

---

The LED board for all Urban products is made in Italy and uses a UL-certified metal core support capable of withstanding temperatures of up to 110°C, with SURGE protection of over 6 kV. The board is equipped with transient voltage suppressors that protect it further in case of discharge.

In addition, an NTC temperature sensor controls the temperature, preventing damages in maximum-temperature situations due to environmental or circuit-related problems.

All these solutions guarantee long-lasting product life.

La scheda LED per tutti i prodotti Urban è realizzata in Italia e utilizza un supporto metal core Certificato UL , che resiste a temperature fino 110° C, con protezione ai SURGE oltre ai 6 KV. La scheda è dotata di soppressori di transienti che, in caso di scarica, la proteggono ulteriormente.

In aggiunta è presente anche un sensore di temperatura NTC che ne controlla la temperatura evitando danni in situazioni di temperatura massima a causa di problematiche ambientali o circuitali.

Tutto questo garantisce una lunga durata del prodotto.

## Dimming profile / Profilo di dimmerazione

---

The standard dimming profile (STANDARD AUTO-DIM) has the following characteristics:

From switch-on to 22:00 - 100% operation

From 22:00 to 01:00 - 70% operation (30% reduction)

From 01:00 to 05:00 - 50% operation (50% reduction)

From 05:00 to switch-off - 100% operation

Il profilo di dimmerazione standard (AUTO-DIM STANDARD) ha le seguenti caratteristiche:

Da accensione fino alle 22,00 - Funzionamento al 100%

Dalle 22,00 alle 01,00 - Funzionamento al 70% (Riduzione del 30%)

Dalle 01,00 alle 05,00 - Funzionamento al 50% (Riduzione del 50%)

Dalle 05,00 fino a spegnimento - Funzionamento al 100%

# B-LIGHT 2.0

B-Light 2.0 is a direct-illumination device consisting of a pole with rectangular cross-section on which one or two LED-based light fittings are mounted. The light fitting is 560 mm long, 200 mm wide and 100 mm high, and weighs 115 kg (B-Light 2.0 single) or 122 kg (B-Light 2.0 double). It is available in the B-Light 2.0 Single or B-Light 2.0 Double version, with 16-LED (35 W), 24-LED (53 W) and 32-LED (70 W) light fittings, and in the B-Light 2.0 Bollard marking bollard version with 8 LEDs (18 W).

These products are suitable for urban decorative and street lighting purposes.

B-Light 2.0 è un apparecchio per illuminazione diretta formato da un palo a sezione rettangolare dove vengono inseriti uno o due corpi illuminanti con luce a LED.

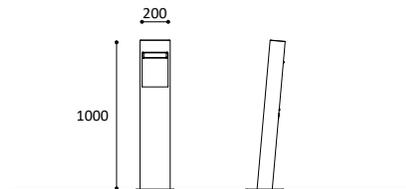

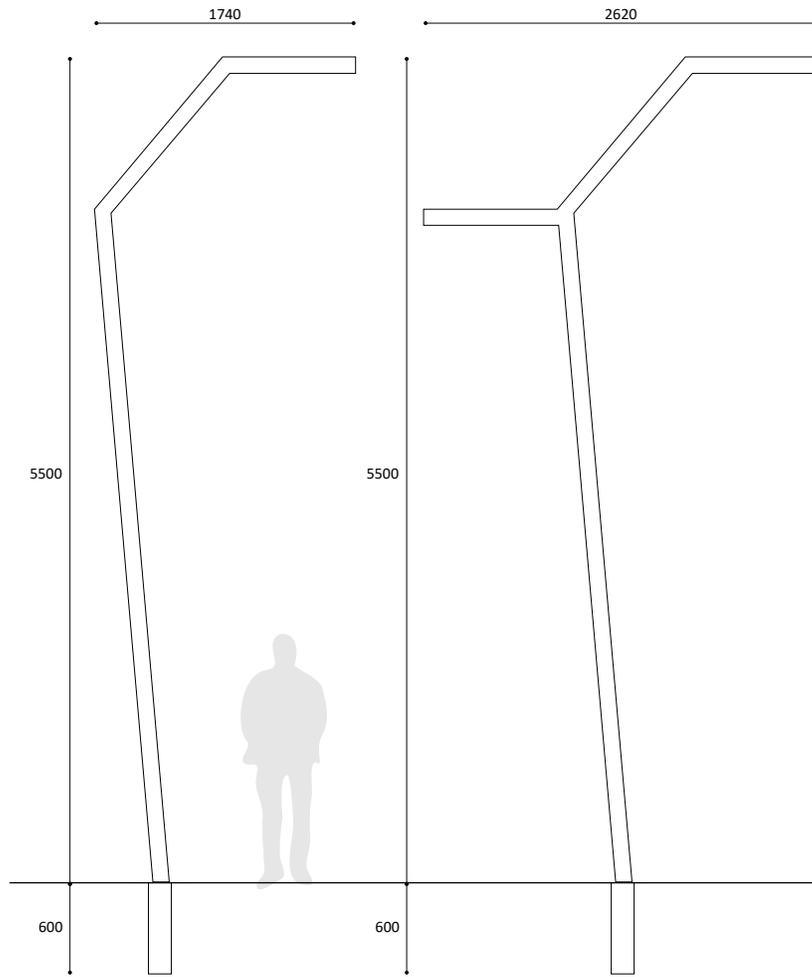

Il corpo illuminante misura 560 mm di lunghezza, 200 mm di larghezza e 100 mm di altezza per un peso totale di 115 kg (B-Light 2.0 singolo) o 122 kg (B-Light 2.0 doppio).

Disponibile nelle versioni B-Light 2.0 Singolo o B-Light 2.0 Doppio, con corpi illuminanti da 16 LED (35W), 24 LED (53W) e 32 LED (70W) e nella versione paletto dissuasore, B-Light 2.0 Dissuasore, a 8 LED (18W).

Prodotti adatti per l'illuminazione d'arredo urbano e stradale.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "street lighting". Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of  $\pm 5\%$ . In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice. Luminaires flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

# B-LIGHT 2.0

## More features / Caratteristiche aggiuntive

---

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

## Standards and certifications / Normative e certificazioni

---

Standards: IEC 60598-2-3:2002/AMD1:2011, IEC 60598-1:2014, IEC 62031:2008 +A1:2012 + A2:2014, IEC TR 62778:2014 (Second Edition), EN62471, EN55015, EN61547, EN61000-3-2, EN61000-3-3, EN62493.

Certifications: CE, RoHS.

\*The version with double lamp pole is managed as a non-standard code

# LOZE

Loze is a direct illumination device consisting of a pole with rectangular cross-section on which a LED-based light fitting is mounted.

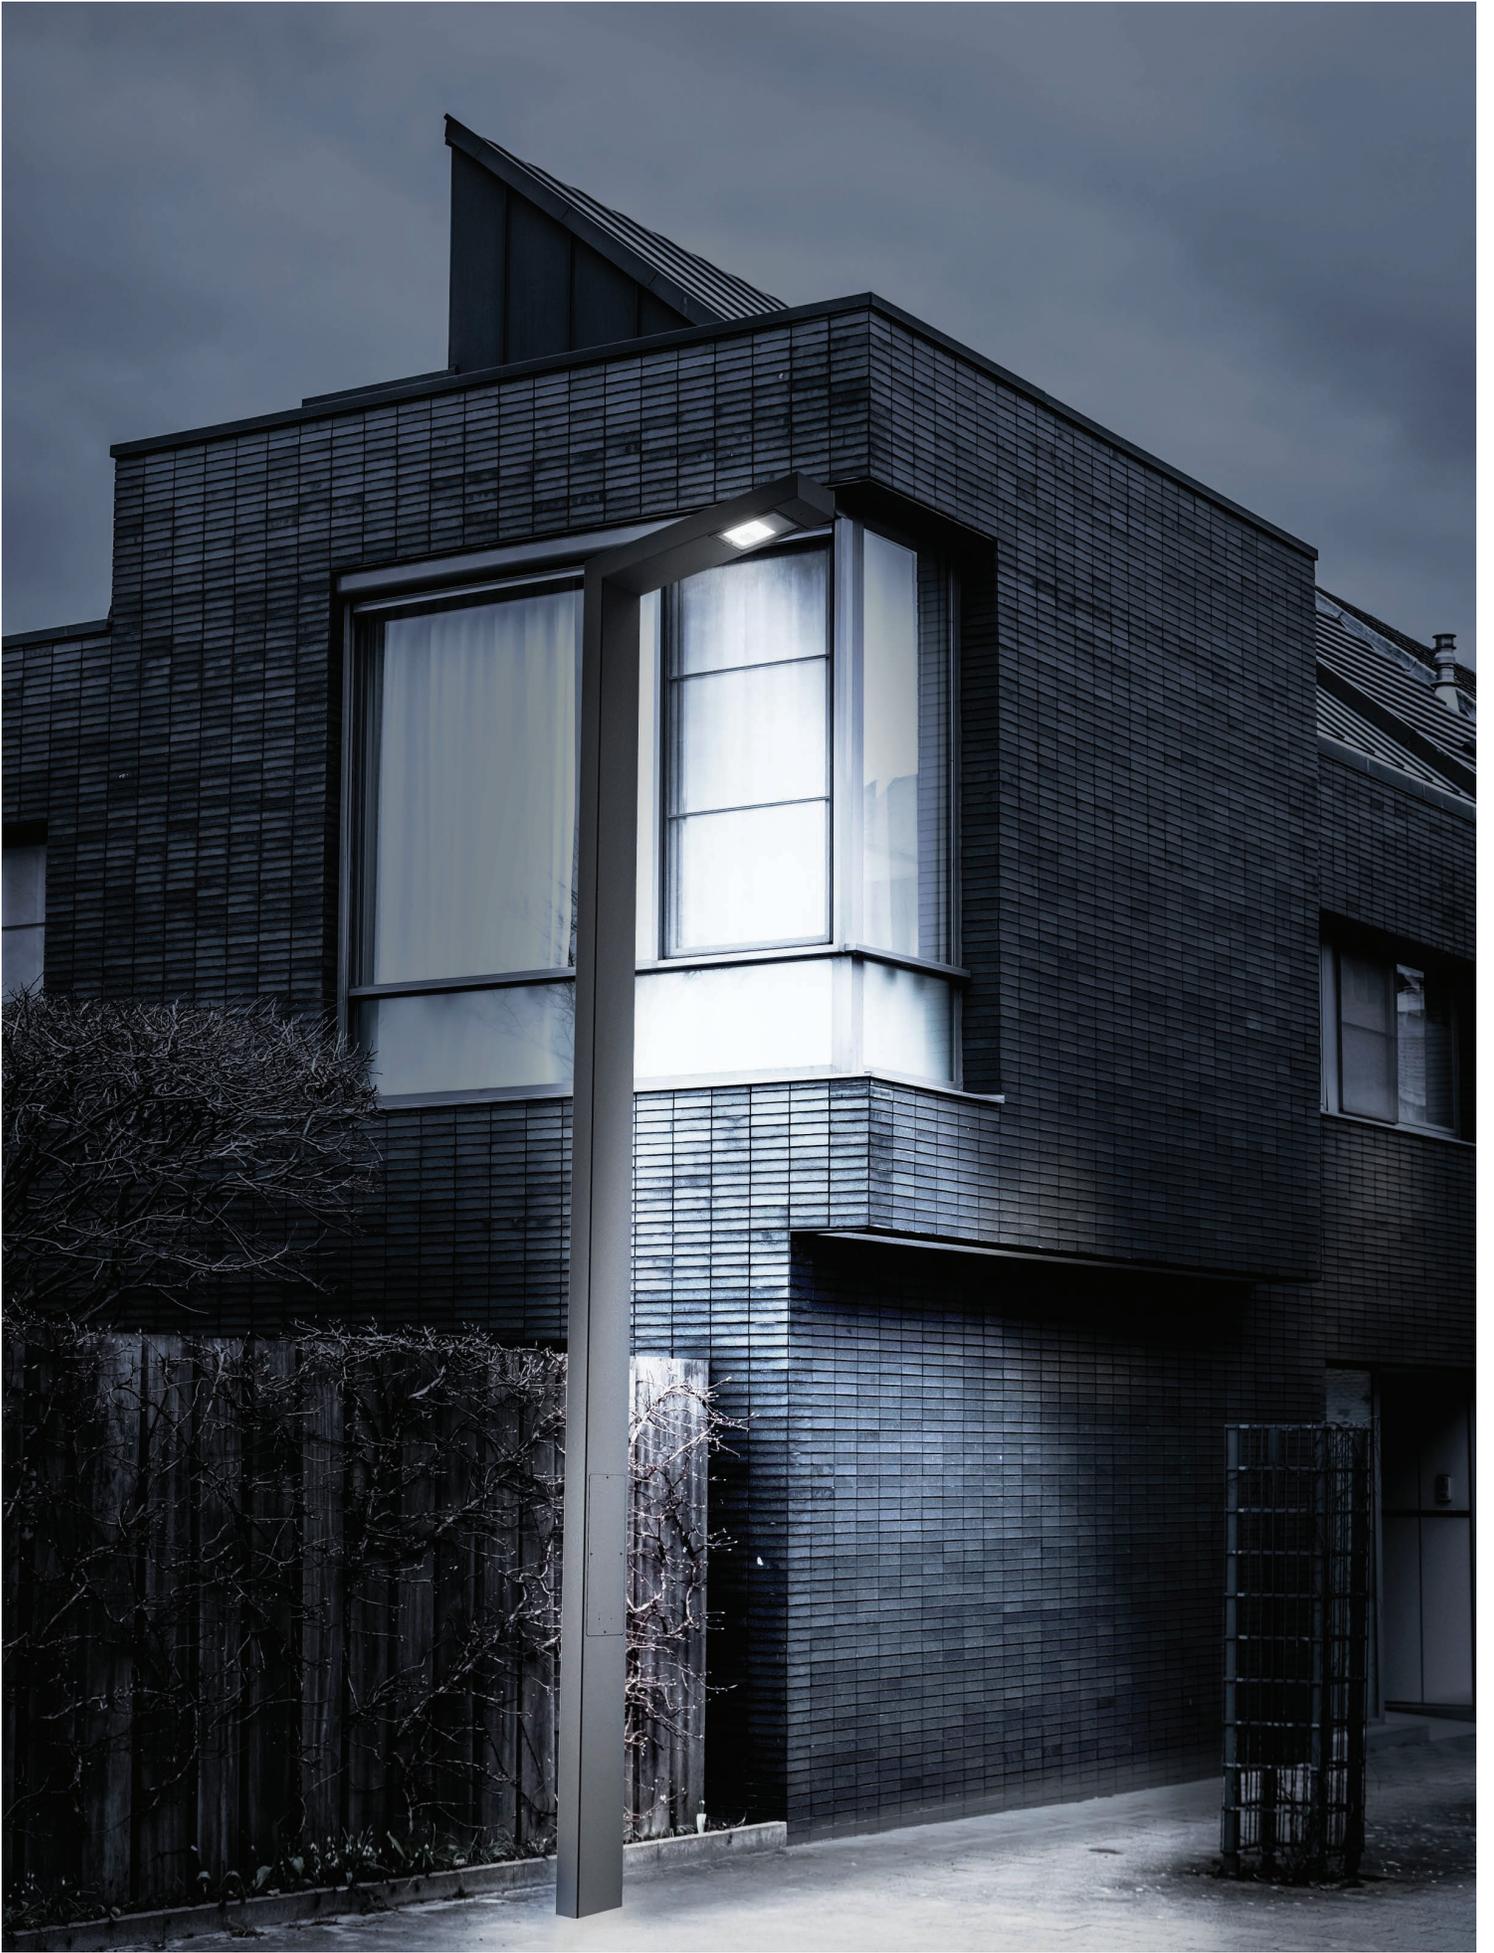

The light fitting is 560 mm long, 200 mm wide and 100 mm high, for a total weight of 115 kg. The product is available in the lamp-post version (Loze Single) or wall-mounted lamp version (Loze Wall), with 16-LED (35 W), 24-LED (53 W) and 32-LED (70 W) light fittings, and in the Loze Bollard marking bollard version with 8 LEDs (18 W).

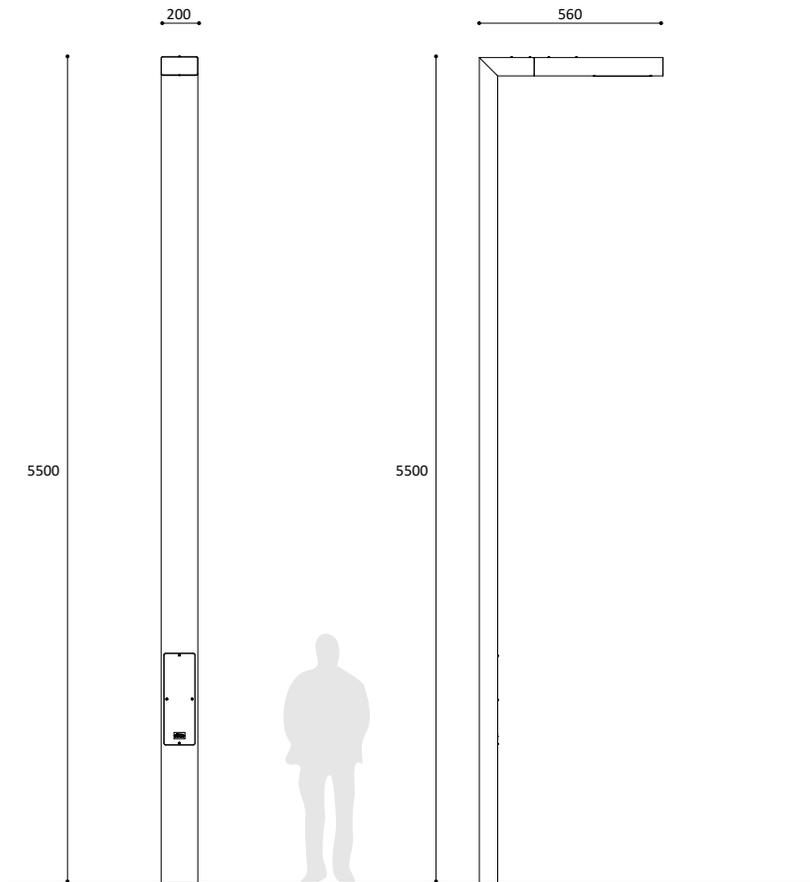

These products are suitable for urban decorative and street lighting purposes.

Loze è un apparecchio per illuminazione diretta formato da un palo a sezione rettangolare dove viene inserito un corpo illuminante con luce a LED. Il corpo illuminante misura 560 mm di lunghezza, 200 mm di larghezza e 100 mm di altezza, per un peso totale 115 kg. Il prodotto è disponibile nella versione lampione, Loze Singolo, o lampada a parete, Loze Parete, con corpi illuminanti da 16 LED (35W), 24 LED (53W) e 32 LED (70W) e nella versione paletto dissuasore, Loze Dissuasore, a 8 LED (18W).

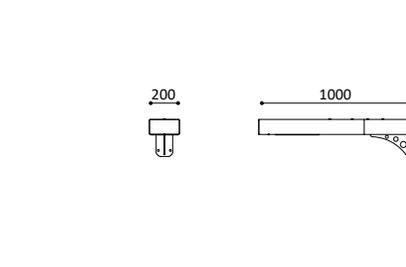

Prodotti adatti per l'illuminazione d'arredo urbano e stradale.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "street lighting". Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of ± 5%. In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice.

Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

## More features / Caratteristiche aggiuntive

---

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "large areas, roundabouts and parkings lighting". Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of  $\pm 5\%$ . In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice. Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

# ROYAL LIGHT

## More features / Caratteristiche aggiuntive

---

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

The coloured backlight is supplied by RGB LEDs managed through the control unit, which allows for varying over time and with a pre-determined cycle the red, green and blue colours that light up the part beneath the veil.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

La luce colorata della retroilluminazione è fornita da LED RGB gestiti dalla centralina di controllo, la quale consente di poter variare nel tempo e con ciclo prefissato le colorazioni rosso, verde e blu, che illuminano la parte sottostante la vela.

# TEMA LANDSCAPE

design by Sardellini Marasca Architetti

Thanks to its pure and minimalist forms, Tema blends in effectively with historical or contemporary settings, enhancing the urban landscape.

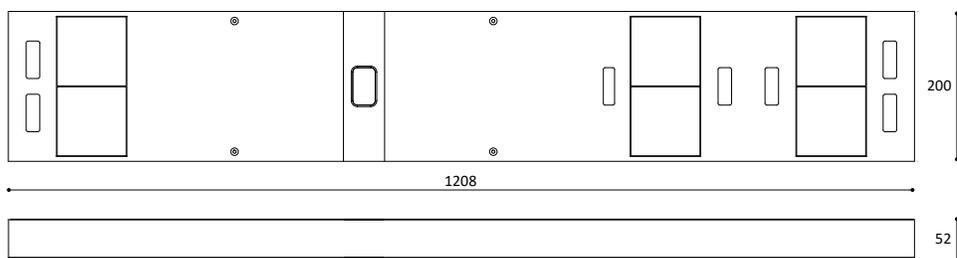

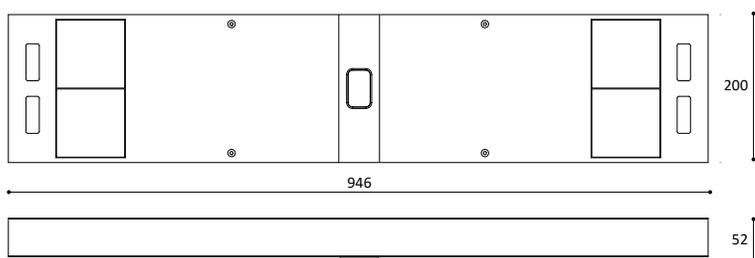

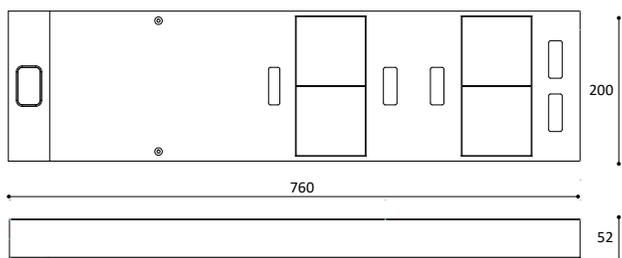

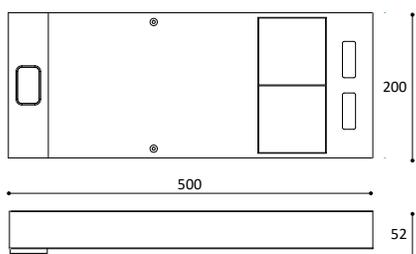

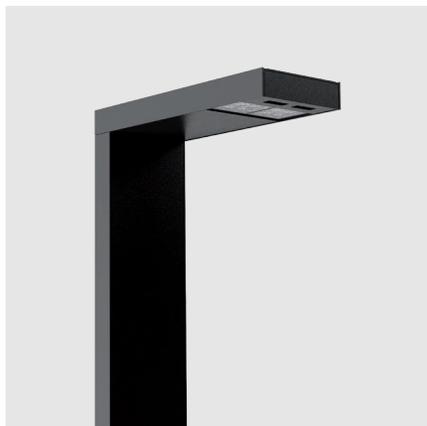

Its modularity makes it the ideal solution for improving security, nocturnal aesthetics, accessibility and social uses. The system includes pole-mounted light fittings featuring and linear and minimalist design.

Grazie alle sue forme pure e minimali, Tema si integra con efficacia sia in contesti storici che contemporanei, valorizzando il paesaggio urbano.

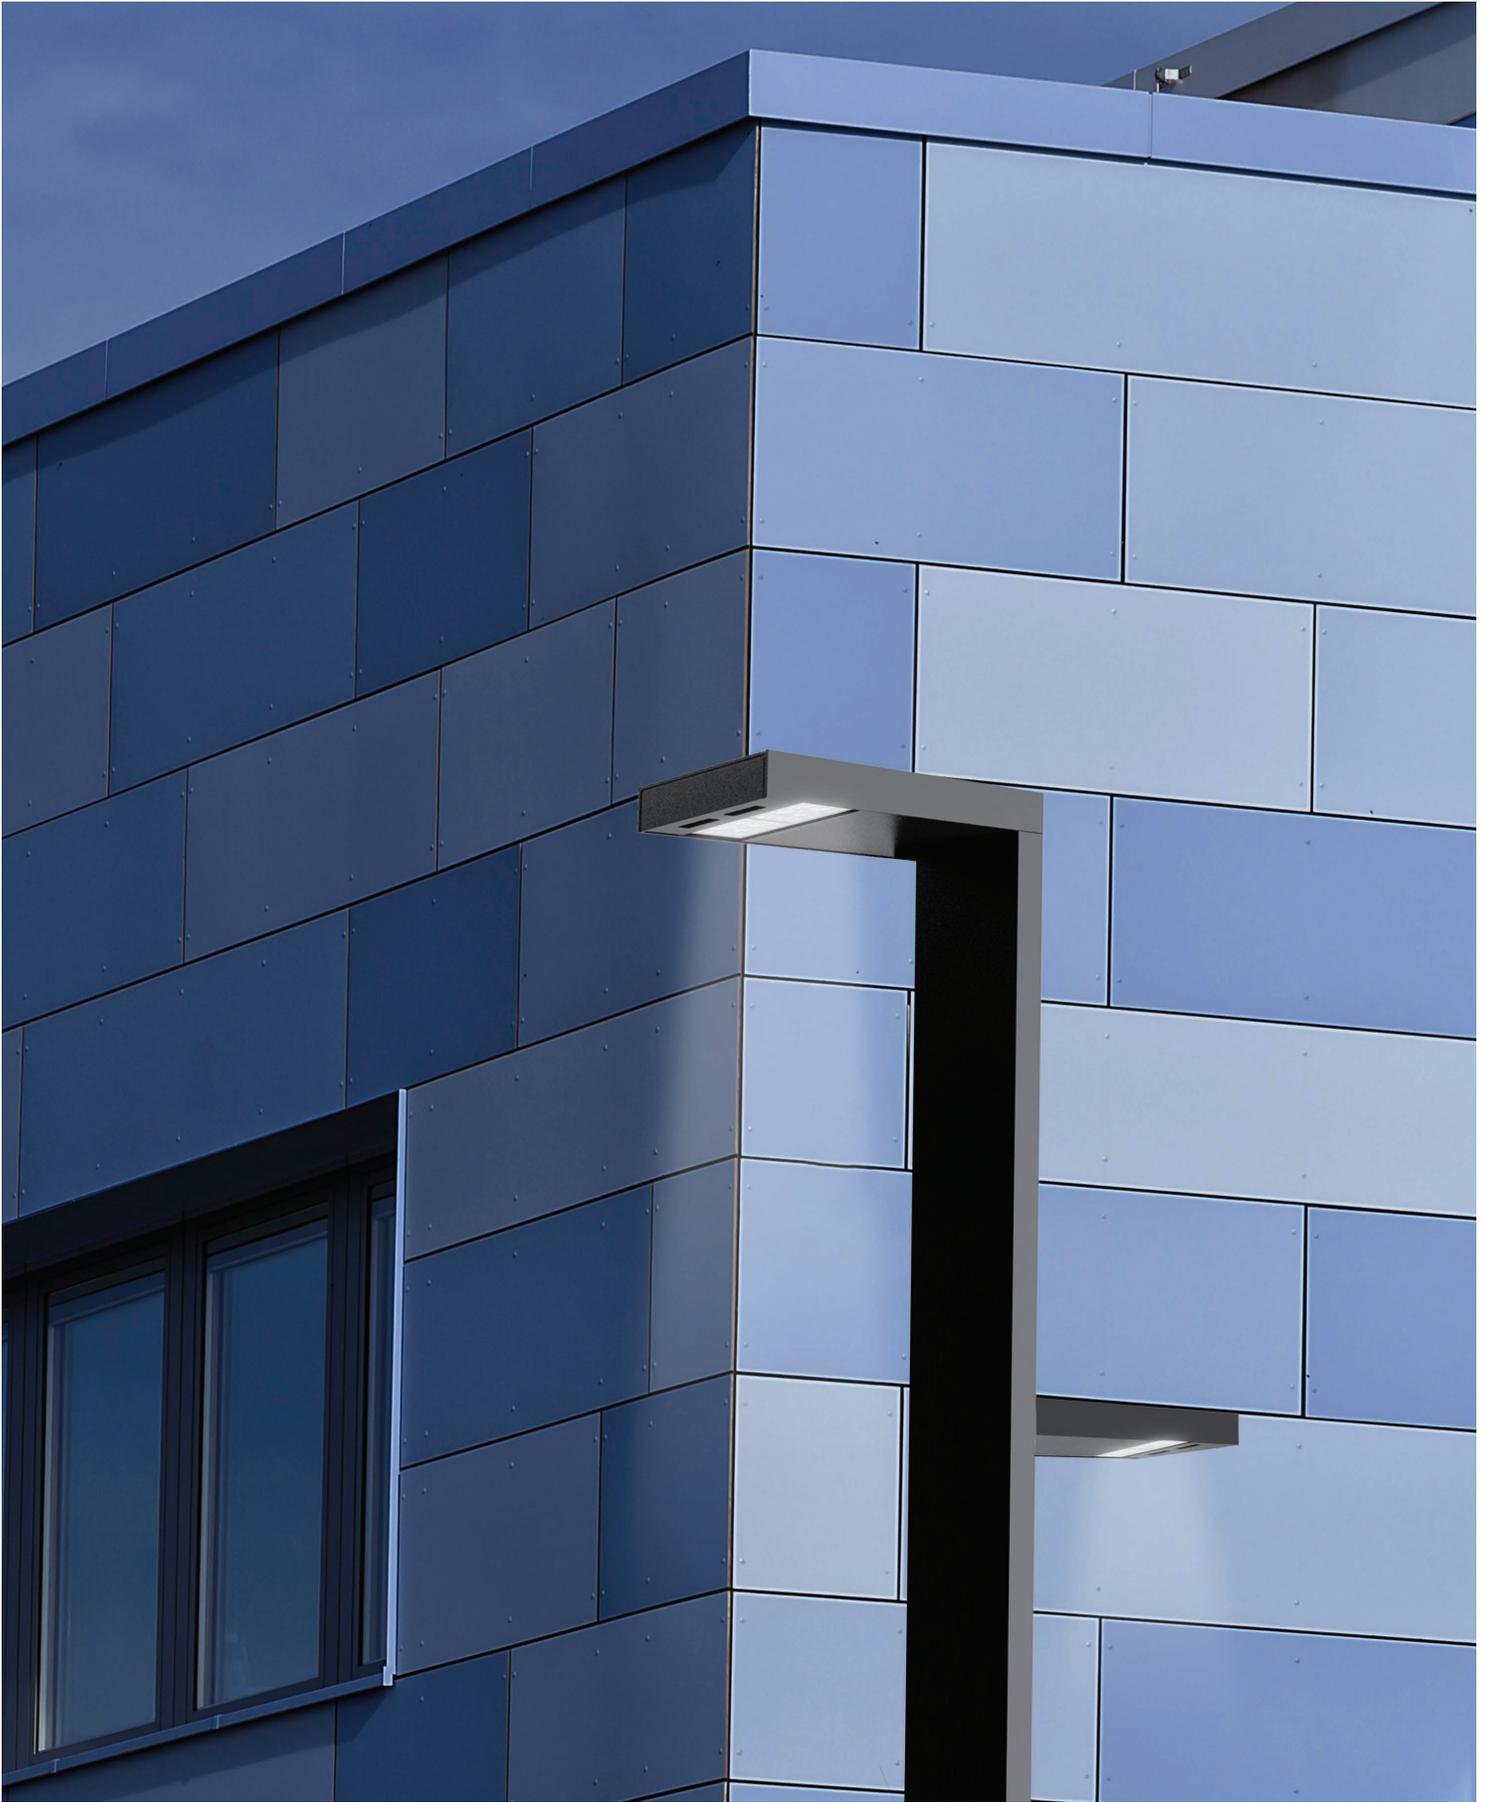

La sua modularità lo rende la soluzione ideale per il miglioramento della sicurezza, dell'estetica notturna, dell'accessibilità e degli usi sociali. Il sistema comprende corpi illuminanti da palo dal design lineare e minimal.

# TEMA CITY

design by Sardellini Marasca Architetti

Tema reinterprets the way of illuminating the city. It is a system of pole-mounted and wall-mounted light fittings with a rigorous design, designed for urban lighting.

Tema responds to the different needs of the urban landscape with its miniaturised dimensions and application flexibility: it can be mounted on poles specifically designed to guarantee a total design or on existing poles, in the single or multiple version.

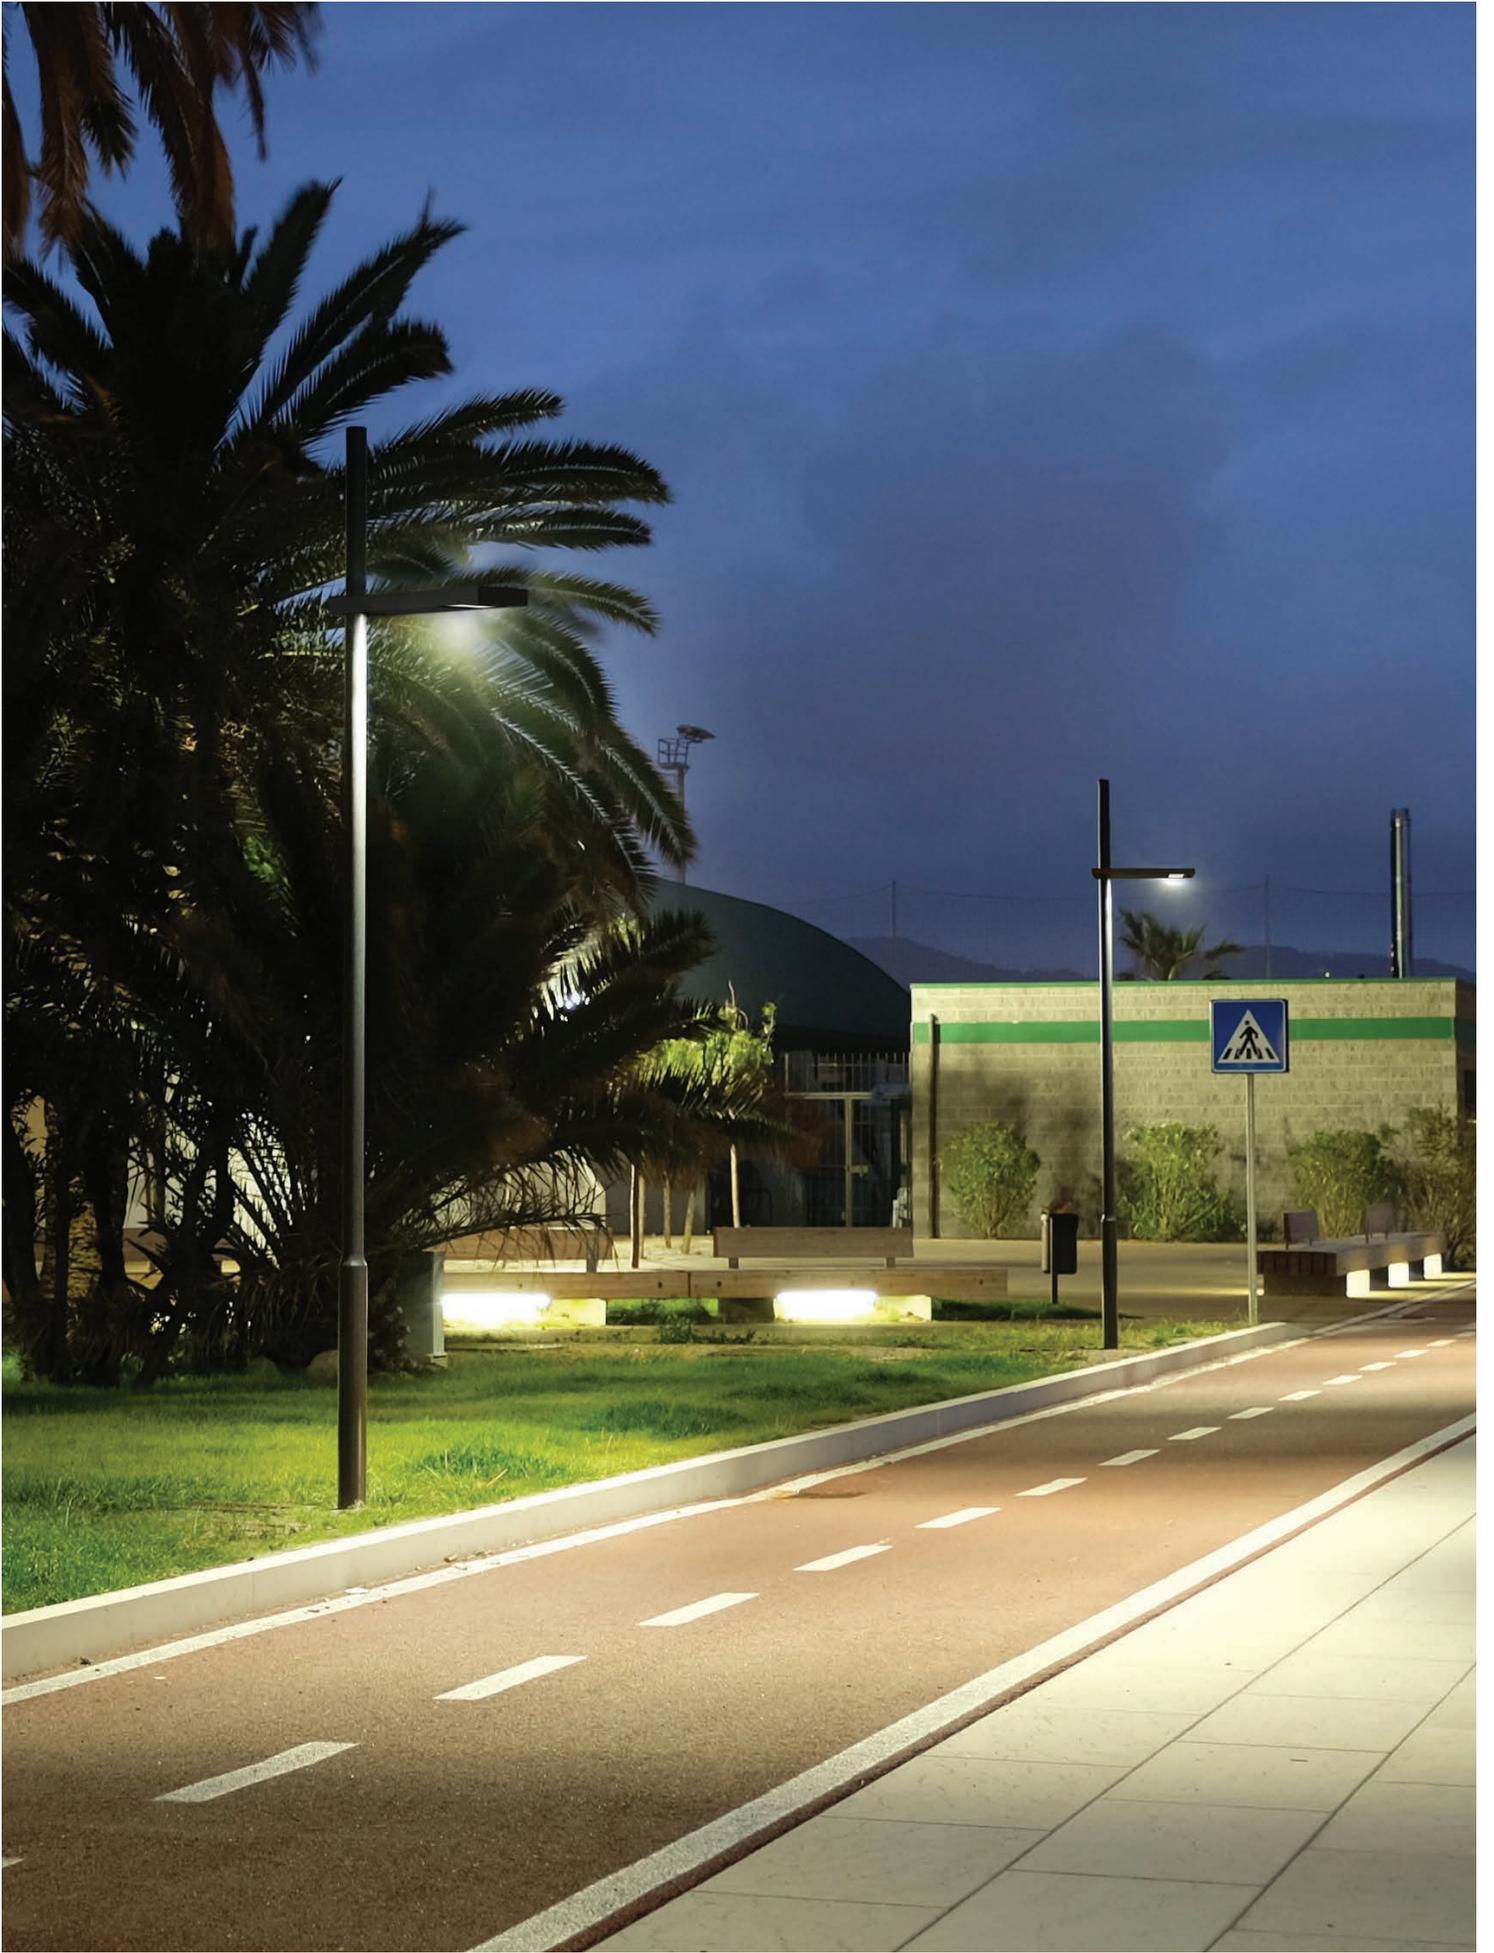

Its versatility is rooted in its construction, which incorporates the advantages offered by modularity of the innovative SLED patented system.

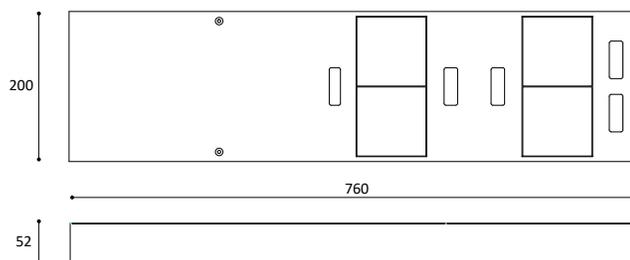

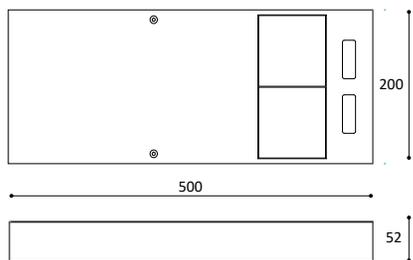

Tema riscrive il modo di illuminare la città. È un sistema di corpi illuminanti da palo e applique dal design essenziale, studiato per l'illuminazione urbana.

Tema risponde alle molteplici esigenze del paesaggio urbano, grazie alla sua miniaturizzazione e flessibilità applicativa: su pali studiati appositamente per garantire un total design o su pali esistenti, in versione singola o multipla.

Nella sua costruzione risiede la sua versatilità, capace di cogliere i benefici della modularità dell'innovativo sistema brevettato SLED.

Peso: 6,1 kg (2 Sled); 7,6 kg (4 Sled)  
Verniciatura: a polveri poliesteri, previo pluritrattamenti contro la corrosione (supera il test di 1500 ore in nebbia salina).  
Corpo: Struttura in estruso di alluminio verniciato a polvere.  
Testate in pressofusione di alluminio verniciato a polvere dello stesso colore della struttura.  
Diffusore: PC anti invecchiamento ai raggi UV.  
Viteria: Inox AISI 304.

## Electrical features / Caratteristiche elettriche

---

Economic life: 50.000 h L80B10 TJ = 25°C.  
Driver: integrated ON-OFF (protection against mains over-voltage up to 4 kV. With automatic nocturnal reduction on request).  
Mains voltage: 220-240 V / 50-60 Hz.  
Wiring: only use (EN 60598-1) a type H07RN-F two-pin cable with diameter between 7.5 mm and 12 mm.  
Insulation class II.

Vita economica: 50.000 h L80B10 TJ = 25°C  
Driver: integrato ON-OFF (protezione contro le extra-tensioni di rete fino a 4KV. A richiesta con riduzione notturna automatica).  
Tensione di rete: 220-240V / 50-60Hz  
Cablaggio: Utilizzare solo (EN 60598-1) cavo bipolare tipo H07RN-F con diametro compreso tra 7,5 e 12mm.  
Classe di isolamento II.

## Power supply / Alimentazione

---

Control gear with virtual midnight and with PFC function, with a power factor of 95%.  
A device (SPD) that guarantees protection against discharges of up to 6 kV with Class I and Class II insulation.

Alimentatore con mezzanotte virtuale e con funzione PFC, con un power factor del 95%.  
Dispositivo (SPD) che garantisce un livello di protezione alle scariche fino a 6 kV in classe I e II di isolamento.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "street lighting". Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of  $\pm 5\%$ . In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice. Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

# ALBA

## More features / Caratteristiche aggiuntive

---

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

The tilt angle can be adjusted as follows:  $\pm 5^\circ$ ,  $\pm 10^\circ$ ,  $\pm 15^\circ$ .

Possibilità di regolare l'inclinazione:  $\pm 5^\circ$ ,  $\pm 10^\circ$ ,  $\pm 15^\circ$ .

Pole-top mount with vertical and horizontal orientation.

Aggancio testa-palo con orientamento verticale e orizzontale.

# HAT

Hat is a direct-light LED lighting device consisting of a die-cast aluminium body with 500 mm diameter and 635 mm height, weighing 8,5 kg.  
Pole-top mount for Ø 60 mm poles.  
This product is suitable for urban decorative and street lighting purposes.

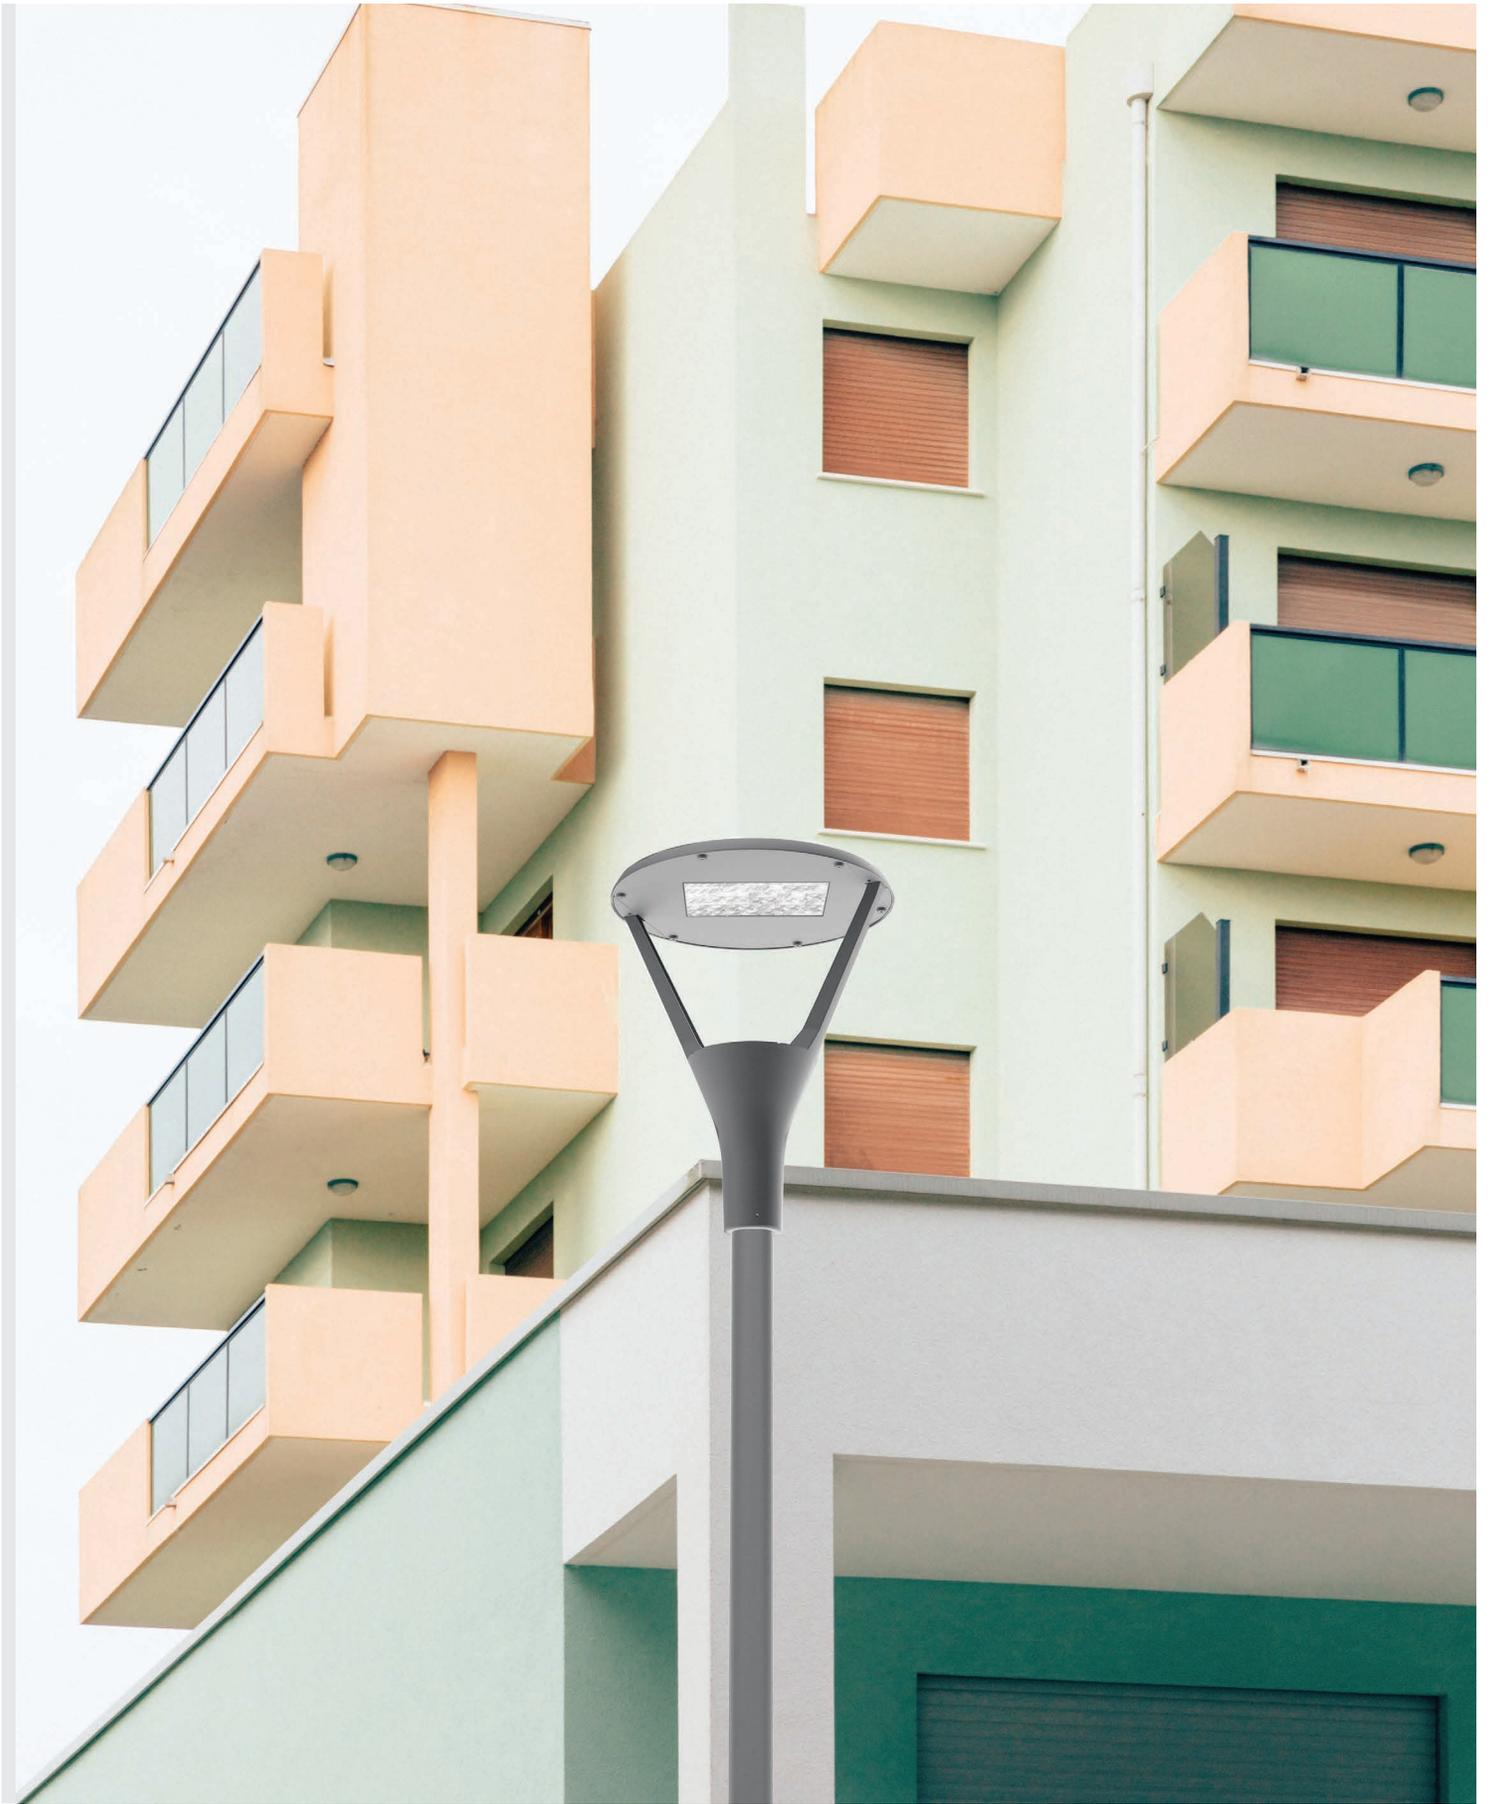

Hat è un apparecchio di illuminazione a luce diretta a LED costituito da un corpo in pressofusione di alluminio di diametro 500 mm e altezza 635 mm, peso 8,5 kg.  
Attacco testa palo per pali Ø 60 mm.  
Prodotto adatto per l'illuminazione d'arredo urbano e stradale.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "green areas lighting".  
Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of  $\pm 5\%$ .

In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice.  
Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

## More features / Caratteristiche aggiuntive

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

## Standards and certifications / Normative e certificazioni

Standards: IEC 60598-2-3:2002/AMD1:2011, IEC 60598-1:2014, IEC 62031:2008 +A1:2012 + A2:2014, IEC TR 62778:2014 (Second Edition), EN62471, EN55015, EN61547, EN61000-3-2, EN61000-3-3, EN62493.

Certifications: CE, RoHS.

Normative: IEC 60598-2-3:2002/AMD1:2011, IEC 60598-1:2014, IEC 62031:2008 +A1:2012 + A2:2014, IEC TR 62778:2014 (Second Edition), EN62471, EN55015, EN61547, EN61000-3-2, EN61000-3-3, EN62493.

Certificazioni: CE, RoHS.

## Light pollution / Inquinamento luminoso

The product conforms to the Lombardy Regional Law No. 17/00 on light pollution and belongs to the "Exempt Group" category according to the EN 62471 standard on photobiological safety.

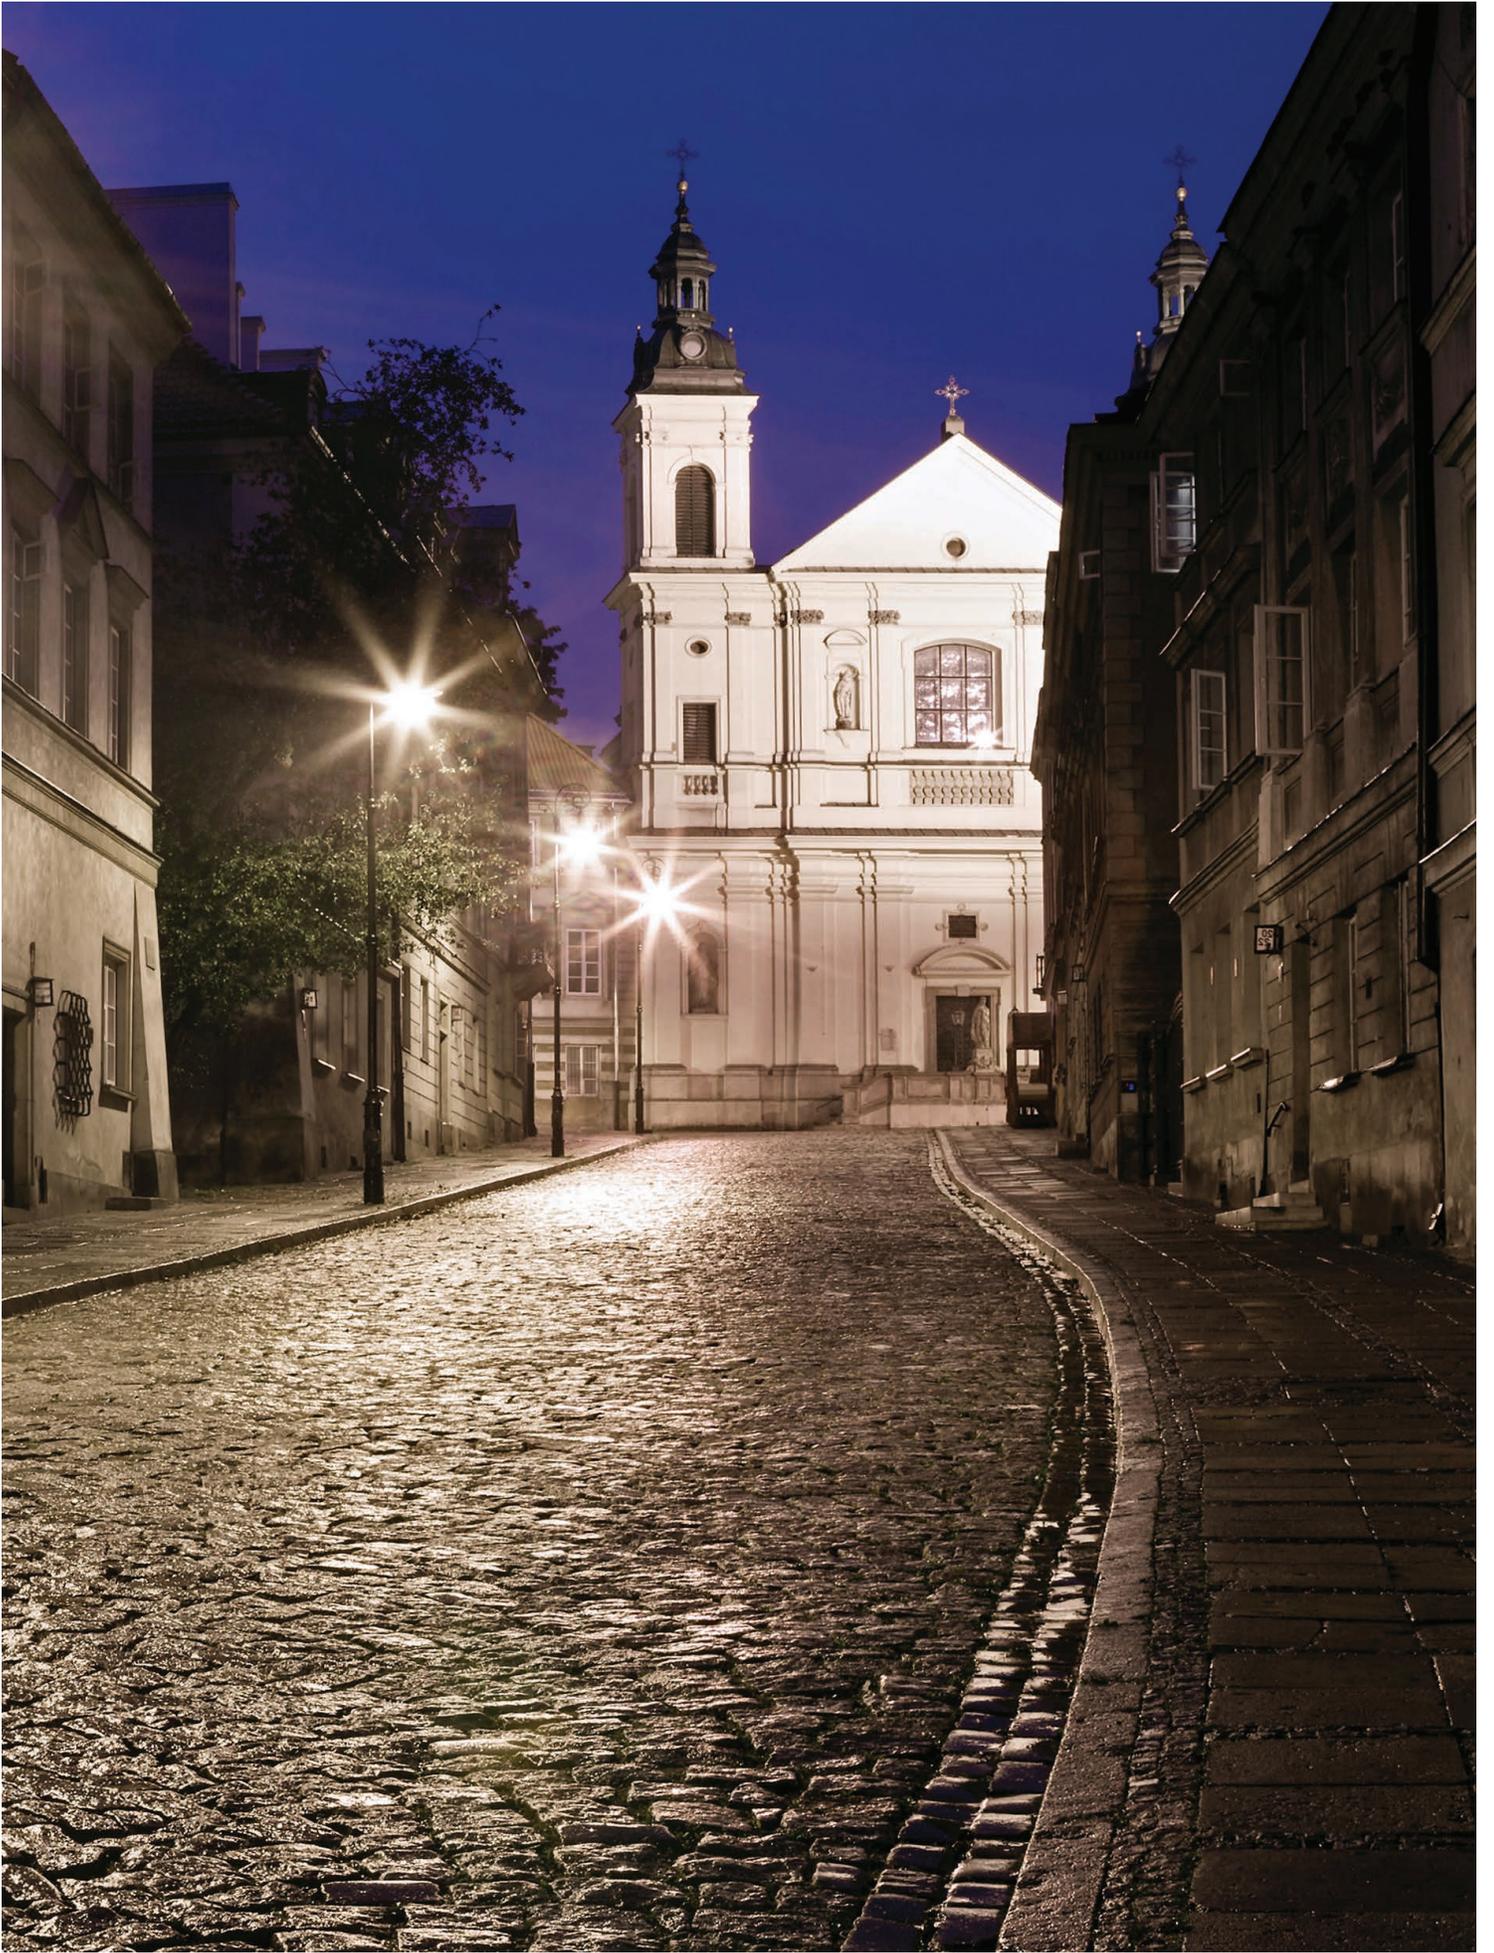

Prodotto conforme alla LR Lombardia 17/00 in materia di inquinamento luminoso, ed appartenente alla categoria "Exempt Group" (Gruppo di Rischio Esente) secondo la norma EN 62471 riguardante la sicurezza fotobiologica.

# ROMANTIC

Romantic is a direct-light LED lighting device consisting of a die-cast aluminium body 421 mm wide, 816 mm high and 421 mm long, weighing 11 kg. Pole-top mount for Ø 60 mm poles.

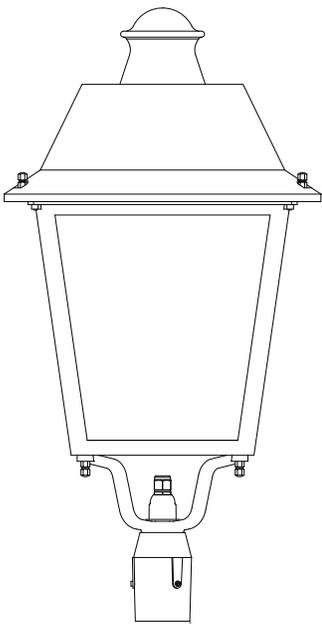

The product is suitable for illuminating historic city centres with artistic devices.

Romantic è un apparecchio di illuminazione a luce diretta a LED costituito da un corpo in pressofusione di alluminio di larghezza 421 mm, altezza 816 mm e lunghezza 421 mm, peso 11 kg. Attacco testa palo per pali Ø 60 mm.

Prodotto adatto per l'illuminazione centri storici con apparecchi artistici.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "city center lighting with artistic luminaires"  
Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of  $\pm 5\%$ .

In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice.  
Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

## More features / Caratteristiche aggiuntive

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

## Standards and certifications/ Normative e certificazioni

# VENEZIA CITY

Venezia is the most widely installed urban light fitting ever, appreciated for its harmonious and clean shape. Venezia has now been updated with a Chip-On-Board LED platform, more compact overall dimensions and an even more uniform and high-performance light emission. Maintaining the original aesthetic concept, it can be used in the same contexts as the previous version. A LED retrofit kit is also available for the previous version, offering considerable energy saving.

Venezia è il prodotto per l'arredo urbano più installato di sempre, apprezzato per la sua forma armoniosa e pulita. Oggi Venezia si rinnova con una piattaforma LED Chip On Board, ingombri più contenuti e un'emissione luminosa ancora più uniforme e performante. Mantenendo il concetto estetico originario, può inserirsi in tutti quei contesti dove è già presente la precedente versione, per la quale è disponibile anche un kit retrofit LED che consente un notevole risparmio energetico.

# DISC

design by Olle Lundberg

A simple ring with an extraordinary design complexity. Disc is the perfect blend of design and innovation.

As part of a product range that consists of bollards of various heights, with two different diameters and two types of light engine, the lamp post head version of Disc is made for public spaces. Its design comprises a metal disc that intersects with the central structure by means of three spokes, which allow the sky to be glimpsed in between.

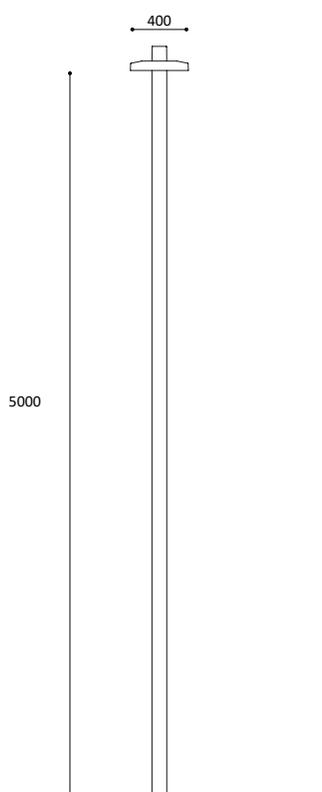

Disc illuminates the space subtly and comfortably, adding a distinctive touch of timeless style.

Un semplice anello dalla grande complessità progettuale. Disc è la perfetta sintesi tra design e ricerca.

Nato nell'ambito di una famiglia di prodotti che si compone di bollard di varie altezze, con due differenti diametri e due tipologie di motore luminoso, nella versione testa palo per spazi pubblici, il disegno di Disc è composto da un disco metallico che si interseca con la struttura centrale con tre razze, creando spazi vuoti che lasciano intravedere il cielo.

Una illuminazione discreta e confortevole con uno stile inconfondibile e senza tempo.

# LED CONVERSION MODULES

Nucleo

p. 160

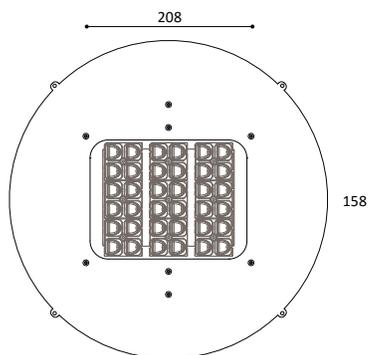

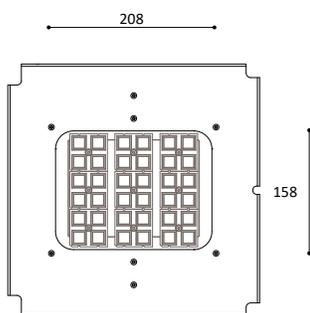

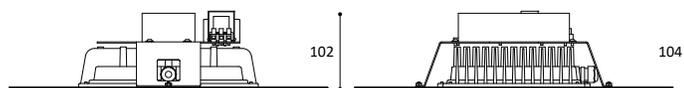

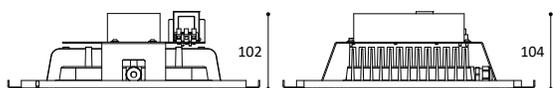

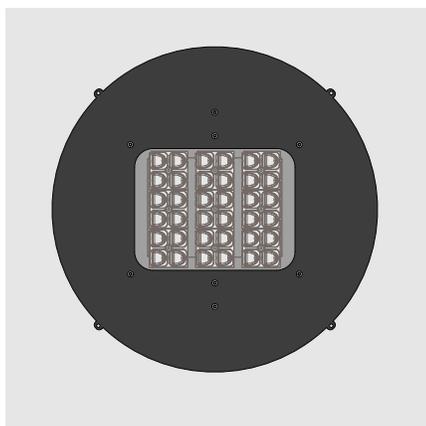

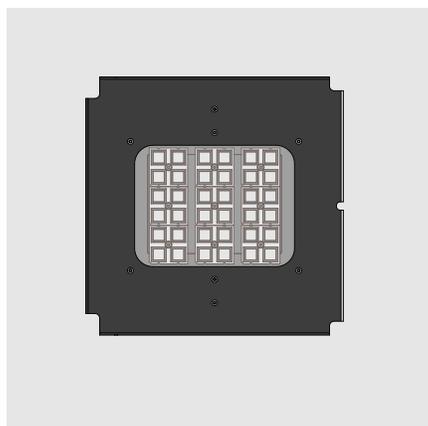

# NUCLEO

Nucleo is a direct-light LED lighting device consisting of a die-cast aluminium heat sink and a metal plate, which can be personalised in terms of colour and the number of LEDs, which vary in relation to the arm structure and the area to be illuminated. The product is suitable for illuminating historic city centres with artistic devices.

Nucleo è un kit di illuminazione a luce diretta a LED, costituito da un dissipatore in alluminio pressofuso e da una piastra in metallo, personalizzabile sia per il colore che per il numero di LED a seconda dell'armatura e dell'area da illuminare. Prodotto adatto per l'illuminazione centri storici con apparecchi artistici.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "city center lighting with artistic luminaires". Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of  $\pm 5\%$ .

In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice.

Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

## More features / Caratteristiche aggiuntive

---

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

## Standards and certifications / Normative e certificazioni

---

Standards: IEC 60598-2-3:2002/AMD1:2011, IEC 60598-1:2014, IEC 62031:2008 +A1:2012 + A2:2014, IEC TR 62778:2014 (Second Edition), EN62471, EN55015, EN61547, EN61000-3-2, EN61000-3-3, EN62493.

Certifications: CE, RoHS.

Normative: IEC 60598-2-3:2002/AMD1:2011, IEC 60598-1:2014, IEC 62031:2008 +A1:2012 + A2:2014, IEC TR 62778:2014 (Second Edition), EN62471, EN55015, EN61547, EN61000-3-2, EN61000-3-3, EN62493.

Certificazioni: CE, RoHS.

## Light pollution / Inquinamento luminoso

---

The product conforms to the Lombardy Regional Law No. 17/00 on light pollution and belongs to the "Exempt Group" category according to the EN 62471 standard on photobiological safety.

Prodotto conforme alla LR Lombardia 17/00 in materia di inquinamento luminoso, ed appartenente alla categoria "Exempt Group" (Gruppo di Rischio Esente) secondo la norma EN 62471 riguardante la sicurezza fotobiologica.

# TEAR LIGHT

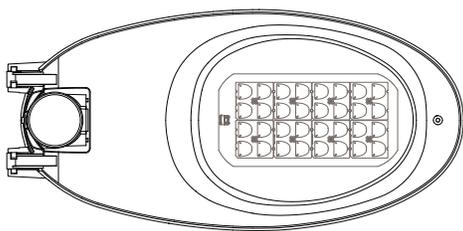

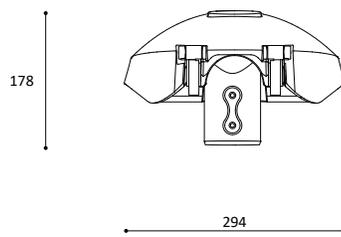

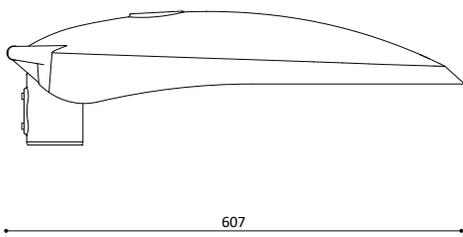

Tear Light is a direct-light LED lighting device consisting of a die-cast aluminium body 294 mm wide, 178 mm high and 607 mm long, weighing 8 kg. Pole-top mount for Ø 60 mm poles.

This product is suitable for urban decorative and street lighting purposes.

Tear Light è un apparecchio di illuminazione a luce diretta a LED costituito da un corpo in pressofusione di alluminio di larghezza 294 mm, altezza 178 mm e lunghezza 607 mm, peso 8 kg. Attacco testa palo per pali Ø 60 mm. Prodotto adatto per l'illuminazione d'arredo urbano e stradale.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "street lighting".

Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of ± 5%.

In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice.

Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

## More features / Caratteristiche aggiuntive

---

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

The tilt angle can be adjusted as follows:  $+5^\circ$ ,  $+10^\circ$ ,  $+15^\circ$ .

Possibilità di regolare l'inclinazione:  $+5^\circ$ ,  $+10^\circ$ ,  $+15^\circ$ .

Pole-top mount with vertical and horizontal orientation.

Aggancio testa-palo con orientamento verticale e orizzontale.

# CLIC LIGHT M

Clic Light M is a direct-light LED lighting device consisting of a die-cast aluminium body 292 mm wide, 101 mm high and 675 mm long, weighing 7 kg.  
Pole-top mount for Ø 60 mm poles.  
This product is suitable for urban decorative and street lighting purposes.

Clic Light M è un apparecchio di illuminazione a luce diretta a LED costituito da un corpo in pressofusione di alluminio di larghezza 292 mm, altezza 101 mm e lunghezza 675 mm, peso 7 kg.  
Attacco testa palo per pali Ø 60 mm.  
Prodotto adatto per l'illuminazione d'arredo urbano e stradale.

## Physical features / Caratteristiche fisiche

---

Light fitting dimensions: 675 mm (L) x 292 mm (W) x 101 mm (H).  
Weight: 7 kg.  
Coating: with polyester powders, by means of an electrostatic process at 200°C, which causes the coating to polymerise.

Dimensioni corpo illuminante: 675 mm (L) x 292 mm (W) x 101 mm (H)  
Peso: 7 kg  
Verniciatura: a polveri poliestere, a mezzo di un processo elettrostatico a 200°C, atto ad ottenere la polimerizzazione del rivestimento.

## Electrical features / Caratteristiche elettriche

---

Economic life: 100.000 h @ L90 F10 fitting, L90 B20 LED @ TJ=85°C.  
Driver: full-load efficiency > 90% - power factor > 0.97 - life span > 85.000 h - temperature stabilisation: NTC sensor.  
Mains voltage: 230 Vac/50 Hz.  
Insulation class II. On request the product can be made with Insulation Class I.

Vita economica: 100.000 h @ L90 F10 apparecchio, L90 B20 LED @ TJ=25°C.  
Driver: efficienza a pieno carico > 90% - fattore di potenza > 0.97 - durata vita > 85.000 h - stabilizzazione temperatura: sensore NTC.  
Tensione di rete: 230 Vac/50 Hz  
Classe di isolamento II. A richiesta il prodotto può essere realizzato in classe I.

## Power supply / Alimentazione

---

FULL PROG. control gear, protection up to 10 kV, 4 dimming steps, based on virtual midnight and with PFC function, with a power factor of 97%.  
A device (SPD) that guarantees protection against discharges of up to 10 kV with Class I insulation, and from 8 kV to 10 kV with Class II insulation.

Alimentatore FULL PROG., protezione fino a 10 kV, 4 step di dimmerazione, basata sulla mezzanotte virtuale e di funzione PFC, con un power factor del 97%.  
Dispositivo (SPD) che garantisce un livello di protezione alle scariche fino a 10 kV in classe I di isolamento, e da 8 kV a 10 kV in classe II.

Coating: with polyester powders, by means of an electrostatic process at 200°C, which causes the coating to polymerise.

Dimensioni corpo illuminante: 570 mm (L) x 180 mm (W) x 100 mm (H)  
Peso: 6 kg  
Verniciatura: a polveri poliestere, a mezzo di un processo elettrostatico a 200°C, atto ad ottenere la polimerizzazione del rivestimento.

## Electrical features / Caratteristiche elettriche

---

Economic life: 100.000 h @ L90 F10 fitting, L90 B20 LED @ TJ=85°C.  
Driver: full-load efficiency > 90% - power factor > 0.97 - life span > 85.000 h - temperature stabilisation: NTC sensor.  
Mains voltage: 230 Vac/50 Hz.  
Insulation class II. On request the product can be made with Insulation Class I.

Vita economica: 100.000 h @ L90 F10 apparecchio, L90 B20 LED @ TJ=25°C.  
Driver: efficienza a pieno carico > 90% - fattore di potenza > 0.97 - durata vita > 85.000 h - stabilizzazione temperatura: sensore NTC.  
Tensione di rete: 230 Vac/50 Hz  
Classe di isolamento II. A richiesta il prodotto può essere realizzato in classe I.

## Power supply / Alimentazione

---

FULL PROG. control gear, protection up to 10 kV, 4 dimming steps, based on virtual midnight and with PFC function, with a power factor of 97%.  
A device (SPD) that guarantees protection against discharges of up to 10 kV with Class I insulation, and from 8 kV to 10 kV with Class II insulation.

Alimentatore FULL PROG., protezione fino a 10 kV, 4 step di dimmerazione, basata sulla mezzanotte virtuale e di funzione PFC, con un power factor del 97%.  
Dispositivo (SPD) che garantisce un livello di protezione alle scariche fino a 10 kV in classe I di isolamento, e da 8 kV a 10 kV in classe II.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "street lighting". Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of ± 5%.

In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice.

Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

# CLIC LIGHT S

## More features / Caratteristiche aggiuntive

---

The device comes with the Constant Light Output (CLO) function, a system for offsetting the luminous flux decay and for ensuring a pre-defined level of illumination throughout the fitting's useful life.

L'apparecchio è provvisto di funzione Constant Light Output (CLO), sistema per compensare il decadimento del flusso luminoso e per assicurare un livello di illuminazione predefinito durante la vita utile del corpo illuminante.

## Standards and certifications / Normative e certificazioni

# WING EVO

Wing Evo is a direct-light LED lighting device consisting of a die-cast aluminium body 309 mm wide, 257 mm high and 791 mm long, weighing 10 kg.  
Pole-top mount for Ø 60 mm poles.  
This product is suitable for urban decorative and street lighting purposes.

Wing Evo è un apparecchio di illuminazione a luce diretta a LED costituito da un corpo in pressofusione di alluminio di larghezza 309 mm, altezza 257 mm e lunghezza 791 mm, peso 10 kg.  
Attacco testa palo per pali Ø 60 mm.  
Prodotto adatto per l'illuminazione d'arredo urbano e stradale.

Light fitting dimensions (without rear box): 325 mm (L) x 62 mm (W) x 397 mm (H).

Light fitting dimensions (with rear box): 325 mm (L) x 127 mm (W) x 397 mm (H).

Weight: 7 kg (with rear box); 4,5 kg (without rear box).

Coating: with polyester powders after several corrosion-prevention treatments (1500-hour salt spray test passed).

Body: die-cast aluminium, resistant to corrosion.

Stainless steel bracket.

Diffuser: extra clear high efficiency tempered glass.

Dimensioni corpo illuminante: 325 mm (L) x 62 mm (W) x 397 mm (H) (senza scatola posteriore).

Dimensioni corpo illuminante: 325 mm (L) x 127 mm (W) x 397 mm (H) (con scatola posteriore).

Peso: 7 kg (con scatola posteriore); 4,5 kg (senza scatola posteriore).

Verniciatura: polveri poliesteri, previo pluritrattamenti contro la corrosione (supera il test di 1500 ore in nebbia salina).

Corpo: in alluminio pressofuso, resistente alla corrosione.

Staffa in acciaio inossidabile.

Diffusore: vetro temperato extra chiaro ad alta efficienza.

## Electrical features / Caratteristiche elettriche

---

Driver: ON-OFF or DALI.

Mains voltage: 220-240 V / 50-60 Hz.

Wiring: configured for pass-through line, internal branch-off, only use a type H07RN-F cable (EN 60598-1).

Insulation Class I. On request the product can be made with Insulation Class II.

Driver: ON-OFF o DALI

Tensione di rete: 220-240 V / 50-60 Hz

Cablaggio: predisposti per linea passante, derivazione interna utilizzare solo (EN 60598-1) cavo tipo H07RN-F.

Classe di isolamento I. A richiesta il prodotto può essere realizzato in classe II.

# PHOTOVOLTAIC

Tear Light FV p. 238

Wing Evo FV p. 248

# TEAR LIGHT FV

Tear Light FV is a LED-based direct-light photovoltaic lighting system with a minimalist design, consisting of a die-cast aluminium Tear Light model fitting complete with a battery and high-efficiency lamp - 294 mm wide, 178 mm high and 607 mm long - plus a photovoltaic kit.

It is equipped with all the necessary protections for keeping the battery operational and efficient over time in any working conditions - even up to 3 days without sunlight.

This product is suitable for urban decorative and street lighting purposes.

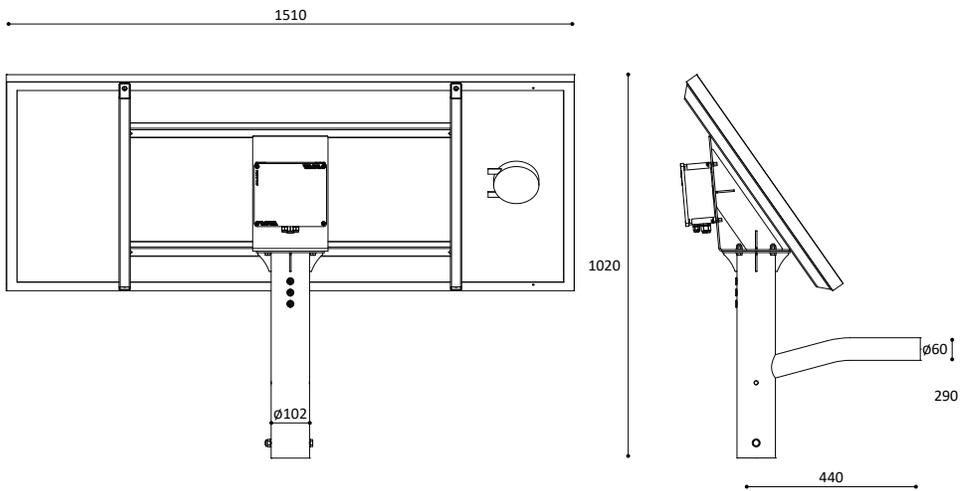

Tear Light FV è un sistema fotovoltaico di illuminazione a luce diretta a LED dal design minimale, costituito da una lampada modello Tear Light in pressofusione di alluminio completo di batteria e lampada ad alta efficienza - larghezza 294 mm, altezza 178 mm e lunghezza 607 mm - e da un kit fotovoltaico.

È dotato di tutte le protezioni necessarie per mantenere efficiente e funzionale la batteria nel tempo in qualsiasi condizione di funzionamento, fino a 3 giorni di assenza di sole.

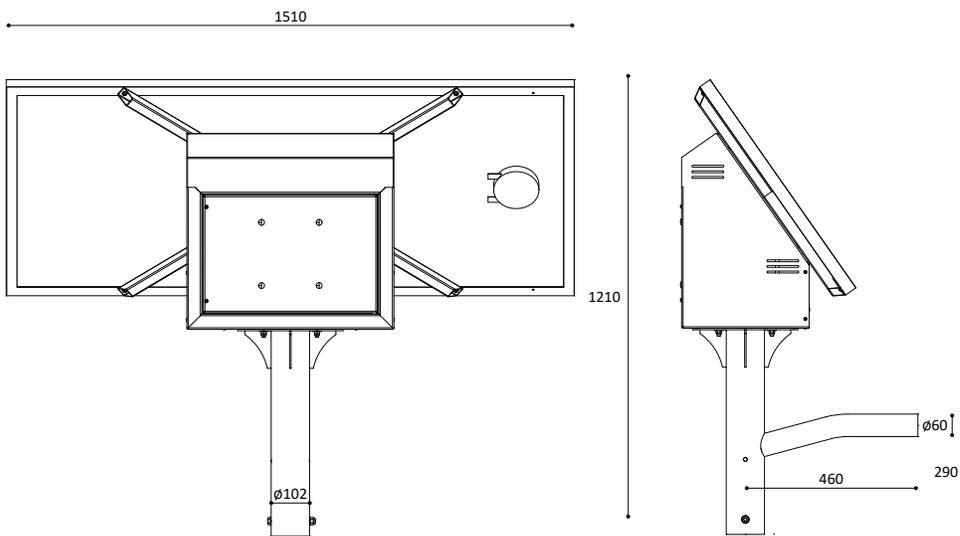

Prodotto adatto per l'illuminazione d'arredo urbano e stradale.

Tear Light FV — with low-profile battery (in sump): photovoltaic panel angle 55°

Tear Light FV — with high-profile battery: photovoltaic panel angle 55°

## More features / Caratteristiche aggiuntive

---

The photovoltaic kit contains the following devices:

- charge regulator: PWM 12/24 V 10 A with automatic disconnection when the battery is charged.
- IP68 sealed battery: PB - GEL 12 V 100 Ah featuring excellent performance with high current, optimised for short discharge time. Maintenance-free (no topping up).
- Panel: 12 V poly-crystalline photovoltaic module made of premium-quality material, ensuring excellent performance and long-lasting life. The high-performance cells are protected by an anti-reflection glass with high transmittance.

Il kit fotovoltaico consta delle seguenti apparecchiature:

- regolatore di carica: PWM 12/24V 10A con disconnessione automatica a batteria carica.
- Batteria stagna IP68: PB - GEL 12V 100Ah con eccellenti prestazioni ad alta corrente - ottimizzate per breve tempo di scarica. Senza manutenzione (nessun rabbocco).
- Pannello: modulo fotovoltaico poli-cristallino 12V , realizzato con materiale di prima qualità, con una ottima resa e una lunga durata. Le celle ad alto rendimento sono protette da vetro antiriflesso ad elevata trasmittanza.

## Standards and e certifications / Normative e certificazioni

---

Charge regulator: conforms to the following IEC 62109-1 safety standard and to the EN 61000-6-1, EN 61000-6-3 and ISO 7637-2 standards for EMC.

Photovoltaic panel conforms to the following standards: EN 61730-1:2007+A1:2012+A2:2013+A11:2014; EN 61730-2:2007+A1:2012.

Regolatore di carica: conforme alle norme STANDARDS per la sicurezza IEC 62109-1 e per la EMC EN 61000-6-1, EN 61000-6-3, ISO 7637-2

Pannello fotovoltaico conforme alle seguenti norme Standards: EN 61730-1:2007+A1:2012+A2:2013+A11:2014; EN 61730-2:2007+A1:2012

## Light pollution / Inquinamento luminoso

---

The product conforms to the Lombardy Regional Law No. 17/00 on light pollution and belongs to the "Exempt Group" category according to the EN 62471 standard on photobiological safety.

Prodotto conforme alla LR Lombardia 17/00 in materia di inquinamento luminoso, ed appartenente alla categoria "Exempt Group" (Gruppo di Rischio Esente) secondo la norma EN 62471 riguardante la sicurezza fotobiologica.

# WING EVO FV

Wing Evo FV is a LED-based direct-light photovoltaic lighting system with a minimalist design, consisting of a die-cast aluminium Wing Evo model fitting complete with a battery and high-efficiency lamp - 309 mm wide, 257 mm high and 791 mm long - plus a photovoltaic kit.

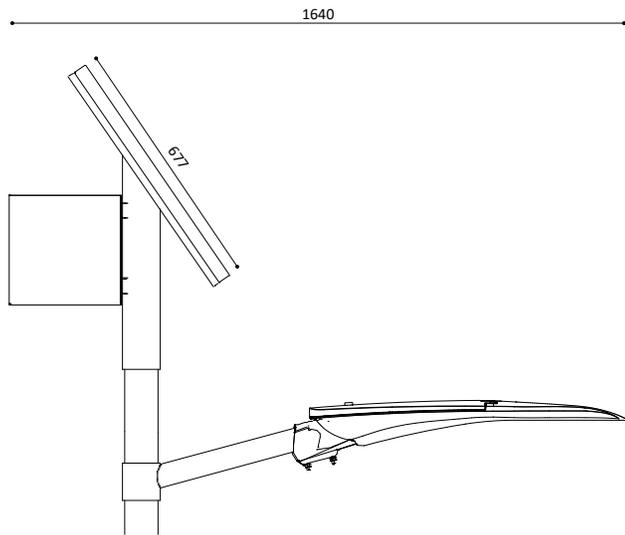

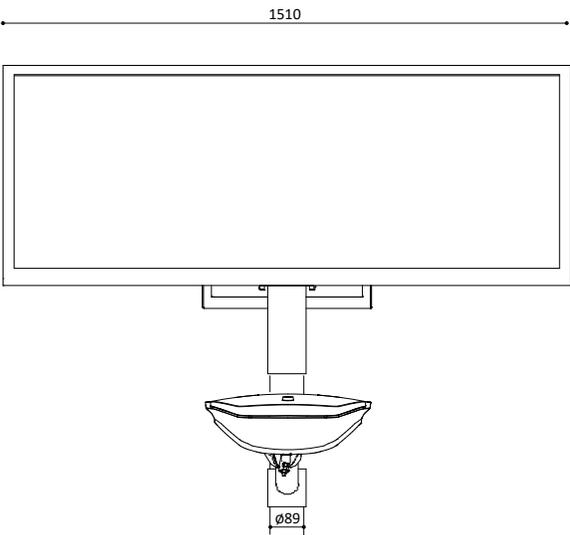

This product is suitable for urban decorative and street lighting purposes.

Wing Evo FV è un sistema fotovoltaico di illuminazione a luce diretta a LED dal design minimale, costituito da una lampada modello Wing Evo in pressofusione di alluminio completo di batteria e lampada ad alta efficienza - larghezza 309 mm, altezza 257 mm e lunghezza 791 mm - e da un kit fotovoltaico.

Prodotto adatto per l'illuminazione d'arredo urbano e stradale.

Wing Evo FV

## Versions / Varianti

---

Wing Evo FV lamp with low battery (to be positioned in the junction box)  
Wing Evo FV lamp with high battery (to be positioned in an upper compartment)

Lampada Wing Evo FV con batteria bassa (da posizionare a pozzetto)  
Lampada Wing Evo FV con batteria alta (da posizionare in un vano superiore)

## Physical features / Caratteristiche fisiche

---

Dimensions of the supporting structure: 1510 mm (L) x 440 mm (W) x 1020 mm (H) Wing Evo FV with low battery; 1510 mm (L) x 460 mm (W) x 1210 mm (H) Wing Evo FV with high battery.  
Weight: 35 kg Wing Evo FV with low battery; 70 kg Wing Evo FV with high battery.  
Coating: with polyester powders, by means of an electrostatic process at 200°C, which causes the coating to polymerise.

Dimensioni struttura di supporto: 1510 mm (L) x 440 mm (W) x 1020 mm (H) Wing Evo FV con batteria bassa; 1510 mm (L) x 460 mm (W) x 1210 mm (H) Wing Evo FV con batteria alta  
Peso: 35 kg Wing Evo FV con batteria bassa; 70 kg Wing Evo FV con batteria alta  
Verniciatura: a polveri poliestere, a mezzo di un processo elettrostatico a 200°C, atto ad ottenere la polimerizzazione del rivestimento.

## Electrical features / Caratteristiche elettriche

---

Economic life: 100.000 h @ L90 F10 fitting, L90 B20 LED @ TJ=85°C.  
Insulation class: III.

Vita economica: 100.000 h @ L90 F10 apparecchio, L90 B20 LED @ TJ=85°C.  
Classe di isolamento: III.

## Power supply / Alimentazione

---

Electronic module that functions as an interface between the charge regulator and the lamp, designed and personalised by Castaldi for optimising the product. Includes the dimming function for reducing the night-time light flow. Insulation class III.

Modulo elettronico di interfaccia tra regolatore di carica e lampada progettato e personalizzato Castaldi per ottimizzare il prodotto, completo di dimmerazione, per ridurre il flusso notturno. Classe di isolamento III.

## Dimming options / Opzioni di dimmerazione

---

3 dimming steps (non-modifiable).  
Duration of "on" operation with dusk-to-dawn sensor: ON 3 HOURS with operation at 100%.  
The next 3 hours: ON with operation at 50% of the rated power.  
The remaining hours until it switches off through the integrated dusk-to-dawn sensor: ON with operation at 30% of the rated power.

3 step di dimmerazione (non modificabili).  
Durate di accensione da Crepuscolare: ON 3 ORE funzionamento al 100%.  
Le successive 3 ore: ON funzionamento al 50% della potenza nominale.  
Le rimanenti ore fino al suo spegnimento tramite crepuscolare integrato: ON funzionamento al 30% della potenza nominale.

\*Parameterised efficiency index (IPEA) determined for field of application defined as "street lighting". Efficiency value refers to LED rated luminous flux at 25°

The values specified on this datasheet are rated values with a tolerance of  $\pm 5\%$ .

In order to keep its product range constantly up-to-date, Castaldi reserves the right to make any changes without prior notice. Luminaire flux data has been measured in the laboratory. Rated flux data has been taken from the LED manufacturer's datasheet.

# WING EVO FV

## More features / Caratteristiche aggiuntive

---

The photovoltaic kit contains the following devices:

- charge regulator: PWM 12/24 V 10 A with automatic disconnection when the battery is charged.
- IP68 sealed battery: PB – GEL 12 V 100 Ah featuring excellent performance with high current, optimised for short discharge time. Maintenance-free (no topping up).
- Panel: 12 V poly-crystalline photovoltaic module made of premium-quality material, ensuring excellent performance and long-lasting life. The high-performance cells are protected by an anti-reflection glass with high transmittance.

Il kit fotovoltaico consta delle seguenti apparecchiature:

- regolatore di carica: PWM 12/24V 10A con disconnessione automatica a batteria carica.
- Batteria stagna IP68: PB – GEL 12V 100Ah con eccellenti prestazioni ad alta corrente - ottimizzate per breve tempo di scarica. Senza manutenzione (nessun rabbocco).
- Pannello: modulo fotovoltaico poli-cristallino 12V , realizzato con materiale di prima qualità, con una ottima resa e una lunga durata. Le celle ad alto rendimento sono protette da vetro antiriflesso ad elevata trasmittanza.

## Standards and certifications / Normative e certificazioni

---

Charge regulator: conforms to the following IEC 62109-1 safety standard and to the EN 61000-6-1, EN 61000-6-3 and ISO 7637-2 standards for EMC.

Photovoltaic panel: conforms to the following standards: EN 61730-1:2007+A1:2012+A2:2013+A11:2014; EN 61730-2:2007+A1:2012.

Regolatore di carica: conforme alle norme STANDARDS per la sicurezza IEC 62109-1 e per la EMC EN 61000-6-1, EN 61000-6-3, ISO 7637-2

Pannello fotovoltaico: conforme alle seguenti norme Standards: EN 61730-1:2007+A1:2012+A2:2013+A11:2014; EN 61730-2:2007+A1:2012

## Light pollution / Inquinamento luminoso

---

The product conforms to the Lombardy Regional Law No. 17/00 on light pollution and belongs to the “Exempt Group” category according to the EN 62471 standard on photobiological safety.

Prodotto conforme alla LR Lombardia 17/00 in materia di inquinamento luminoso, ed appartenente alla categoria “Exempt Group” (Gruppo di Rischio Esente) secondo la norma EN 62471 riguardante la sicurezza fotobiologica.

WEIGHT (KG)	4,3
<b>P/N GALVANISED</b>	<b>8B016P0P03Z</b>

Anchor plate complete with four threaded lag bolts / Riscontro completo di 4 tirafondi filettati / Riscontro completo di 4 tirafondi filettati.

All dimensions are in mm.  
Hot dip galvanisation as per EN ISO 1461.

# KEY / LEGENDA

## Luminaire classification / Classi di isolamento

**Class I:** Electrically insulated in all parts and connected to an earthing point if fixed, or if connected to a flexible power lead with plug, this must include an earth wire.

**Classe I:** Con isolamento funzionale in ogni parte e terminale o morsetto di terra se fisso, o di cavo elettrico di alimentazione completo di conduttore di terra e di relativa spina con contatto di terra se mobile.

**Class II:** Double and/or reinforced insulation in all parts, not connected to an earthing point.

**Classe II:** Con doppio isolamento e/o isolamento rinforzato in ogni parte e senza dispositivi per la messa a terra.

**Class III:** Connection to safety extra low voltage (SELV) circuits, without any internal or external circuits operating at voltages other SELV.

**Classe III:** Previsto per il collegamento a circuiti a bassissima tensione, senza alcun circuito interno od esterno funzionante a tensione diversa da quella bassissima di sicurezza.

## Key to the icons / Legenda icone

European Norms Electrical Certification

Compliant with ROHS standard / Conforme alla normativa Rohs

Product with heat sink / Prodotto con dissipatore

CE marking / Marcatura CE

Dimmable product / Prodotto dimmerabile

With low infrared and ultraviolet emissions / A bassa emissione di infrarossi e ultravioletti

WEEE compliant / Conforme alla RAEE

## Protection / Grado di protezione

**Impact resistance:** conforms to the standard CEI EN 50102.

**Grado di resistenza agli urti:** secondo la CEI EN 50102.

Not protected /  
Non protetto

Protected against impact energy of 1 J /  
Protetto contro un urto di energia 1 J

Protected against impact energy of 0.15 J /  
Protetto contro un urto di energia 0,15 J

Protected against impact energy of 2 J /  
Protetto contro un urto di energia 2 J

Protected against impact energy of 0.2 J /  
Protetto contro un urto di energia 0,2 J

Protected against impact energy of 5 J /  
Protetto contro un urto di energia 5 J

Protected against impact energy of 0.35 J /  
Protetto contro un urto di energia 0,35 J

Protected against impact energy of 10 J /  
Protetto contro un urto di energia 10 J

Protected against impact energy of 0.5 J /  
Protetto contro un urto di energia 0,5 J

Protected against impact energy of 20 J /  
Protetto contro un urto di energia 20 J

Protected against impact energy of 0.7 J /  
Protetto contro un urto di energia 0,7 J

The ratings established by EN 60529 have been approximated by the Italian Electrotechnical Committee CEI70-1[1], and are as follows: IPXX

La codifica, istituita dalla norma EN60529 recepita dalla norma del Comitato Elettrotecnico Italiano CEI70-1[1], è la seguente: IPXX

**FIRST NUMERAL:** indicates the level of protection against solid particle penetration.

**PRIMA CIFRA CARATTERISTICA:** indica il grado di protezione alla penetrazione dei corpi solidi.

First numeral / Primo numero

**IP0X** No protection against contact and ingress of objects / Nessuna protezione al contatto e ingresso di oggetti

**IP1X** Any large surface of the body, such as the back of a hand, but no protection against deliberate contact with a body part / Qualsiasi grande superficie del corpo, come il dorso della mano, ma nessuna protezione contro il contatto intenzionale con una parte del corpo

**IP2X** Protection against solid objects of 12 mm or greater in diameter / Protetto contro corpi solidi di dimensioni superiori a 12 mm

**IP3X** Protection against solid objects of 2.5 mm or greater in diameter / Protetto contro corpi solidi di dimensioni superiori a 2.5 mm

**IP4X** Protection against solid objects of 1 mm or greater in diameter / Protetto contro corpi solidi di dimensioni superiori a 1 mm

**IP5X** Dust protected / Protetto contro la polvere

**IP6X** No ingress of dust / Totalmente protetto contro la polvere

**SECOND NUMERAL:** indicates the level of protection against ingress of liquids.

**SECONDA CIFRA CARATTERISTICA:** indica il grado di protezione alla penetrazione dei liquidi.

Second numeral / Secondo numero

**IPX0** Not protected / Non protetto

**IPX1** Protected against dripping water / Protetto da caduta verticale di gocce d'acqua

**IPX2** Protected against dripping water when tilted up to 15° / Protetto da caduta di gocce d'acqua con inclinazione massima 15°

**IPX3** Protected against rain / Protetto dalla pioggia

**IPX4** Protected against spraying water / Protetto da spruzzi

**IPX5** Protected against water jets / Protetto da getti d'acqua

**IPX6** Protected against powerful water jets / Protetto da ondate

**IPX7** Protected from temporary immersion / Protetto da immersione temporanea

**IPX8** Protected from continuous immersion / Protetto da immersione continua
